

Are Headaches Uncommonly Frequent with Covid Jabs Compared to All Other Drugs?

By Craig Paardekooper

It is easy to assume that a headache is a common reaction to many drugs, jabs or other pharmaceuticals. This assumption may arise from the commonness of headaches in general everyday life. Aches and pains are regarded as part of a general response that includes inflammation, redness, fever, nausea.

Here I looked at all the drugs in Eudra-vigilance Safety Signal Dataset (3645 different drugs) to see which drugs had an excessive incidence of headaches or migraines. Like you, I expected that many medications would have reports of this. Here are the results.

Cervicogenic headache

AIMOVIG	71.7
---------	------

Cluster headache

SODIUM	93.08
--------	-------

BUPRENORPHINE	7.78
---------------	------

VAXZEVRIA	6.53
-----------	------

BYDUREON	5.69
----------	------

OCRELIZUMAB	5.21
-------------	------

TOZINAMERAN	4.66
--------------------	------

AIMOVIG	4.14
---------	------

Cold-stimulus headache

VAXZEVRIA	4.89
------------------	------

TOZINAMERAN	3.49
--------------------	------

Drug withdrawal headache

CYMBALTA	12.38
----------	-------

Exertional headache

COMIRNATY 2.22

VAXZEVRIA 2.17

Headache

VAXZEVRIA 4.61

OCRELIZUMAB 3.12

COMIRNATY 2.7

SPIKEVAX 2.59

NIMENRIX 2.34

MODERNA 2.28

BOTULINUM 2.28

Medication overuse headache

AIMOVIG 57.03

IBUPROFEN 38.6

Menstrual headache

COMIRNATY 6.92

New daily persistent headache

SPIKEVAX 3.44

VAXZEVRIA 3.06

COMIRNATY 2.95

Premenstrual headache

COMIRNATY 4.55

Primary headache associated with sexual activity

VAXZEVRIA 2.34

Primary stabbing headache

VAXZEVRIA	8.27
TOZINAMERAN	2.26

Procedural headache	
SPINRAZA	469.64

Sinus headache	
OCRELIZUMAB	13.08
VAXZEVRIA	7.66
BYDUREON	7.08
TOZINAMERAN	5.52
HYDROCORTISONE	4.15
AVAMYS	2.79

Tension headache	
OCRELIZUMAB	6.26
VAXZEVRIA	5.77
AIMOVIG	5.22
BYDUREON	4.68
TOZINAMERAN	3.87
APIXABAN	2.74
BRINTELLIX	2.39
GARDASIL	2.12

Thunderclap headache	
TOZINAMERAN	3.1
VAXZEVRIA	3.08

Typical aura without headache	
VAXZEVRIA	2.26

Vascular headache

VAXZEVRIA 6.37

TOZINAMERAN 2.69

As you can see, Covid “jabs” generate safety signals for almost every category of headache. This means that headaches occur with an excessive incidence following administration of Covid “jabs”.

This excess is not common. For 10 categories of headache, Covid “jabs” are the only drugs with excess headaches. And for all the other categories, Covid “jabs” are one of only a handful of drugs having this effect. For the general category “headache”, Covid jabs occupy 1st, 3rd, 4th and 6th places out of all drugs.

Drug	Lower Confidence Limit of Proportional Reporting Ratio
VAXZEVRIA	4.611332473694857
OCRELIZUMAB	3.11686111249739
COMIRNATY	2.6992026941136595
SPIKEVAX	2.592351406280922
NIMENRIX	2.342826760234477
MODERNA	2.2758392761120385
BOTULINUM	2.2753699675209584
JCOVDEN	1.92135121136121
BAQSIMI	1.82259506908812
TRUMENBA	1.742224917428702

Conclusion :

After Covid jabbing, headaches occur with excess frequency compared to all other drugs, jabs, substances and products.

So, what about migraine ?

Hemiplegic migraine

KAFTRIO	50.69
FENTANYL	14.84
TOZINAMERAN	6.4

Migraine

AIMOVIG	29.0
BOTULINUM	28.45
ERENUMAB	22.81
EMGALITY	21.79
AJOVY	6.69
OCRELIZUMAB	5.48
ZONISAMIDE	4.84
ZONEGRAN	4.07
IXIARO	3.24
TOZINAMERAN	3.11
VAXZEVRIA	2.75
XYREM	2.75
APREMILAST	2.62
HIZENTRA	2.6
GARDASIL	2.36
APIXABAN	2.22
CELECOXIB	2.2
BYDUREON	2.11

Migraine with aura

BOTULINUM	18.84
BELIMUMAB	18.83
AIMOVIG	10.56

TOZINAMERAN	4.0
GARDASIL	3.43
OCRELIZUMAB	3.38
AZATHIOPRINE	2.56
VAXZEVRIA	2.51
COMIRNATY	2.5

Migraine without aura

ERENUMAB	173.34
AIMOVIG	15.32
GARDASIL	9.28
ZOSTAVAX	6.89
CYMBALTA	3.62

Ophthalmic migraine

COMIRNATY	2.73
TOZINAMERAN	2.06

Retinal migraine

VAXZEVRIA	8.88
TOZINAMERAN	7.0

Vestibular migraine

AIMOVIG	14.55
TOZINAMERAN	6.91
VAXZEVRIA	2.08

Tozinameran is the worst out of the Covid jabs for migraines, followed by Vaxzevria then by Comirnaty.

Possible reasons for these migraines could be micro-clotting or an anaphalactic reaction to the jab.
