

V-SAFE Reports with Symptom Keyword = VERTIGO

compiled by Craig Paardekooper

V-Safe is the largest collection of vaccine testimonies on the planet.

One of the reasons why the CDC was so reluctant to release the free-text entries of the V-Safe reports is because these entries are the personal testimonies of vaccine effects – numbering 390,000 per release, and numbering millions in total.

Having censored and erased hundreds of thousands of testimonies of vaccine injury from Facebook, the government was equally reluctant to be the provider of what is the largest collection of vaccine testimonies on the planet – collected by the CDC themselves !

Perhaps this is <<the longest story ever told>>, the testimony of 1 million people.

Many thanks to ICAN (<https://icandecide.org/v-safe-data/>) who pursued the CDC through the courts until they finally conceded and began to release this data on January 15th 2024.

Data is from all 4 releases, up until June 15th 2024, reported by 1,092,715 Covid <<vaccine>> recipients. The next release is on July 15th, 2024.

Data

Data Source : V-SAFE (CDC) : download (June 2024) @ <https://icandecide.org/v-safe-data/>

Total number of V-Safe reports with symptom keyword VERTIGO = 7634

Percentage of V-Safe reports with symptom keyword VERTIGO = 0.41945 %

(V-Safe) Total number of Covid <<vaccine>> recipients with this symptom = 5569

(V-Safe) Percentage of Covid <<vaccine>> recipients with this symptom = 0.50965 %

Limitations

This report shows the incidence of a symptom amongst a <<vaccinated>> population of 1092715 in the V-SAFE database. The onset of a high incidence after <<vaccination>> suggests possible cause - requiring further investigation of - 1) Other databases, such as VAERS and EUDRA, 2) Clinical literature and scientific papers.

Sample of 3000 Reports with Symptom Keyword = VERTIGO

vertigo : Case 1: ID GJM-22547-99247

Severe vertigo this morning now resolved

vertigo : Case 2: ID YDD-27992-46659

I had vertigo last night.

vertigo : Case 3: ID SU3-31854-36915

Vertigo

vertigo : Case 4: ID JB8-21664-28756

Vertigo

vertigo : Case 5: ID VLU-23555-30037

Vertigo

vertigo : Case 6: ID FLZ-25276-71447

Vertigo last night mild

vertigo : Case 7: ID ZKA-12147-07617

A little dizziness but it could be the vertigo.

vertigo : Case 8: ID QZH-22705-80911

Mild vertigo

vertigo : Case 9: ID 3WK-23499-39333

Vertigo

vertigo : Case 10: ID SBD-30099-79939

Vertigo

vertigo : Case 11: ID RKJ-24912-74462
Dizziness, vertigo

vertigo : Case 12: ID H2Q-54052-48629
Some vertigo -mild

vertigo : Case 13: ID K9G-25172-82380
Vertigo

vertigo : Case 14: ID SFD-12016-11802
Bouts of mild vertigo/ dizziness

vertigo : Case 15: ID V7R-87303-22781
Some vertigo

vertigo : Case 16: ID QJG-31402-43549
Very, very mild vertigo

vertigo : Case 17: ID V7R-27908-32149
A little vertigo

vertigo : Case 18: ID Y3W-16297-04143
Mild vertigo

vertigo : Case 19: ID SJG-12880-69773
20 minutes after the shot I experienced approximately 2 minutes of vertigo. Then I was fine.

vertigo : Case 20: ID 5YM-28705-96417
Dizziness/vertigo

vertigo : Case 21: ID JB8-21664-28756

Vertigo

vertigo : Case 22: ID QRZ-27588-94536

Very, very mild vertigo at times when standing or moving quickly

vertigo : Case 23: ID GHX-27353-98471

Severe Vertigo/dizziness

vertigo : Case 24: ID YYA-30122-49773

Vertigo starting at night and into mid- day

vertigo : Case 25: ID 9SW-41528-41803

Vertigo, lightheadness

vertigo : Case 26: ID B5P-33071-29387

Vertigo

vertigo : Case 27: ID QDB-92410-60151

Still a bit of vertigo

vertigo : Case 28: ID Q22-20382-14355

Vertigo

vertigo : Case 29: ID GHX-27353-98471

Vertigo

vertigo : Case 30: ID 4S7-17964-61600

Vertigo

vertigo : Case 31: ID SKF-33323-89343

Vertigo but that's preexisting and nausea was second to vertigo

vertigo : Case 32: ID RHN-16014-06914

Vertigo

vertigo : Case 33: ID ZVB-30734-48802

Mild vertigo

vertigo : Case 34: ID PFR-21340-19894

Vertigo

vertigo : Case 35: ID 797-12501-22704

Vertigo bad enough that I had to go home from work. I have never had this before

vertigo : Case 36: ID AN6-28662-80644

Yesterday felt dizzy, vertigo kicked in. Nausea occurred after I ate lunch.

vertigo : Case 37: ID TNU-23520-86052

Vertigo

vertigo : Case 38: ID TE5-36039-72817

second day moderate vertigo w/ nystagmus

vertigo : Case 39: ID L78-23910-49019

Malaise, vertigo, orthostatic hypotension

vertigo : Case 40: ID 9RF-31053-01977

Mild vertigo

vertigo : Case 41: ID M3A-38296-72631

Vertigo

vertigo : Case 42: ID TMX-14486-76387

Labyrinthitis Vertigo, really bad the evening of 2nd Day after shot

vertigo : Case 43: ID C4V-31897-84410

Vertigo

vertigo : Case 44: ID 797-12501-22704

Vertigo at approx same time as last 2 days

vertigo : Case 45: ID U7H-21077-11535

Vertigo

vertigo : Case 46: ID ZLW-33355-80875

Vertigo is still bothering with daily activities, also had constipation and strong intestinal pain but for a short period of time.

vertigo : Case 47: ID RB5-26876-92519

Vertigo

vertigo : Case 48: ID 2MS-24790-17505

I've had a few bouts of pretty severe vertigo.

vertigo : Case 49: ID KFF-56897-62690

I had some dizziness/vertigo today. I am prone to that, so don't think it's related.

vertigo : Case 50: ID R3Q-20806-47144

Mild vertigo

vertigo : Case 51: ID S27-21282-37024

Tingling in fingers on same side, increase in mild vertigo symptoms (already have vertigo)

vertigo : Case 52: ID BFZ-16146-10571

Vertigo

vertigo : Case 53: ID 5WU-22290-47103

Vertigo? Mild

vertigo : Case 54: ID YVF-19641-07731

Vertigo on day 2 moderated difficulties walking

vertigo : Case 55: ID 764-14003-34150

Mild vertigo with mild buzz in ears when it occurs

vertigo : Case 56: ID 8DQ-13950-80066

Mild vertigo

vertigo : Case 57: ID MJK-34449-58932

Vertigo

vertigo : Case 58: ID YYA-30122-49773

Mild vertigo

vertigo : Case 59: ID MBA-15925-59624

Brief episode of vertigo

vertigo : Case 60: ID VWP-19657-38280

I was unable to report my symptoms on 12/18. I woke with vertigo, nausea and vomiting, and fatigue. Sleep for 6 hours during the day. Could not find a way on your website to go back and document.

vertigo : Case 61: ID CHZ-28458-64219

Vertigo

vertigo : Case 62: ID MJK-34449-58932

Vertigo

vertigo : Case 63: ID 8DQ-13950-80066

Mild vertigo

vertigo : Case 64: ID 8GL-33957-38102

Vertigo

vertigo : Case 65: ID CLJ-58241-47261

Mild Vertigo

vertigo : Case 66: ID H4C-47098-45456

Day of shot slight headache. 7 hrs after shot had nausea and vertigo that lasted approximately 48hrs

vertigo : Case 67: ID 6V3-88781-13967

Vertigo

vertigo : Case 68: ID ZLW-33355-80875

Sinus is still present resulting on some light headache + vertigo symptoms

vertigo : Case 69: ID 2MS-24790-17505
Frequency of vertigo spells seems to be increasing.

vertigo : Case 70: ID RKR-16105-01166
Dizziness/vertigo

vertigo : Case 71: ID YUV-12297-75491
Vertigo

vertigo : Case 72: ID BFZ-16146-10571
Vertigo

vertigo : Case 73: ID 2X2-14163-33452
Lightheadedness/vertigo

vertigo : Case 74: ID 4ZR-78388-77715
Vertigo

vertigo : Case 75: ID 4CN-22775-89643
Accupuncture for my vertigo symptoms.

I still feel like vertigo. But I got Acupuncture and determined my ears are inflamed and it helped the vertigo a little. This sucks

vertigo : Case 76: ID F6R-24455-32672
Vertigo, dizziness

vertigo : Case 77: ID YYA-30122-49773
Mild vertigo

vertigo : Case 78: ID Z3Y-31181-70297
Vertigo

vertigo : Case 79: ID YLQ-27010-22331
Mild vertigo

vertigo : Case 80: ID 26C-89261-85049
Vertigo

vertigo : Case 81: ID 2C9-15277-19721
Vertigo

vertigo : Case 82: ID A55-18579-24536
Vertigo

vertigo : Case 83: ID 9WD-21441-10862
Vertigo (maybe unrelated?)

vertigo : Case 84: ID 6AS-32200-84535
Vertigo at 4 am, resolved after a few minutes

vertigo : Case 85: ID QZH-22705-80911
Vertigo

vertigo : Case 86: ID FS3-13757-11149
Vertigo

vertigo : Case 87: ID 9JJ-90620-19747
Vertigo

vertigo : Case 88: ID AN6-28662-80644

I have had vertigo issues in the past and since I have had the vaccine the vertigo has been an issue on Thursday and today.

vertigo : Case 89: ID 9HC-12174-40923

Chronic vertigo

vertigo : Case 90: ID QSC-24408-52158

vertigo

vertigo : Case 91: ID NSP-74433-64438

dizziness, vertigo

vertigo : Case 92: ID ERB-33484-63884

The first day I had vertigo but none since

vertigo : Case 93: ID 56Z-30655-13391

Vertigo, which I've never had before

vertigo : Case 94: ID 8QW-21998-18544

1 instance of vertigo

vertigo : Case 95: ID 7CF-19545-86401

Vertigo/dizziness

vertigo : Case 96: ID TMX-14486-76387

Dizziness has gone down considerably, but is still evident. Have been doing anti-vertigo exercises

vertigo : Case 97: ID TNU-23520-86052

Vertigo

vertigo : Case 98: ID 8P6-19222-12906

Vertigo, dizziness

vertigo : Case 99: ID TN7-14387-81732

Vertigo

vertigo : Case 100: ID HMG-14916-62071

I have a history of Benign Vertio and I noted a moderate amount of vertigo symptoms last night and this morning. Improved to mild this afternoon.

vertigo : Case 101: ID QNY-11431-75036

Vertigo

vertigo : Case 102: ID 6AS-32200-84535

Vertigo

vertigo : Case 103: ID GHX-27353-98471

Vertigo

vertigo : Case 104: ID VPR-26616-82356

vertigo

vertigo : Case 105: ID 246-20976-00190

Dizzy- may not be related. I've had vertigo in the past.

vertigo : Case 106: ID HTS-21717-99792

Having vertigo today but this issue is my on going issue

vertigo : Case 107: ID DYN-25788-59833

Vertigo

vertigo : Case 108: ID F6R-24455-32672

Vertigo and dizziness

vertigo : Case 109: ID P9Z-56564-13461

Didn't seek help. One time event

Last night I had vertigo

vertigo : Case 110: ID MBV-14426-51747

Vertigo

vertigo : Case 111: ID P93-13945-72782

Vertigo, eye redness and irritation

vertigo : Case 112: ID 2X2-14163-33452

Vertigo, hot flashes

vertigo : Case 113: ID EWD-54834-06787

I've experienced a mild case of vertigo, which I am prone to , and am doubtful it has anything to do with my vaccine

vertigo : Case 114: ID 73F-61676-81461

I had an episode of vertigo, almost like being sea sick, after the vaccination. It lasted about an hour.

vertigo : Case 115: ID DBB-44123-55362

Sore throat , vertigo

vertigo : Case 116: ID RCC-62990-54468
Moderate Dizziness, vertigo

vertigo : Case 117: ID 2MX-17338-46810
Vertigo

vertigo : Case 118: ID 2MS-24790-17505

Vertigo

vertigo : Case 164: ID GJB-33621-81773
Brief vertigo

vertigo : Case 165: ID KCV-17947-26418
Positional vertigo probably not related to vaccine

vertigo : Case 166: ID BKK-30367-39025

Vertigo

vertigo : Case 167: ID UV6-30069-52057

Dizzy/vertigo

vertigo : Case 168: ID 4PJ-31981-36351

Dizziness and vertigo

vertigo : Case 169: ID CHZ-28458-64219

Physical therapy for vertigo

Vertigo

vertigo : Case 170: ID GEL-60139-47368

Vertigo

vertigo : Case 171: ID RGT-28247-40504

Vertigo while exercising

vertigo : Case 172: ID BKK-30367-39025

Vertigo

vertigo : Case 173: ID CLJ-58241-47261

Mild vertigo

vertigo : Case 174: ID T22-15984-14412

Vertigo

vertigo : Case 175: ID YUM-16193-80650

Vertigo

vertigo : Case 176: ID ZH8-16620-35184

Vertigo

vertigo : Case 177: ID Y2G-46329-88314

New onset vertigo and dizziness intermittently when sitting and when changing position from lying to standing.

vertigo : Case 178: ID F6R-24455-32672

Vertigo

vertigo : Case 179: ID 4D9-12320-77082

Dizziness lasting most of the day (I do get occasional vertigo). Rash is in bilateral axillae

vertigo : Case 180: ID 5VY-28570-62659

Vertigo

vertigo : Case 181: ID 2X2-14163-33452

Vertigo/lightheadedness

vertigo : Case 182: ID 2T3-32216-36314

Vertigo

vertigo : Case 183: ID Z3C-79532-53088

Vertigo like symptoms

vertigo : Case 184: ID UJV-31371-11213

Vertigo

vertigo : Case 185: ID YYV-16900-90769

Mild vertigo and flashes of light in the edge of my vision

vertigo : Case 186: ID 6LG-18007-70326

Vertigo - not sure it's related to vaccine

vertigo : Case 187: ID VLD-11903-12232

Little bit of vertigo, same as i experienced when i had shingles, mild though

vertigo : Case 188: ID 284-16983-17242

A little dizziness, vertigo, today or yesterday on several occasions

vertigo : Case 189: ID 7NT-14788-06506

Had some increased vertigo today but not sure it's related to the vaccine because I had some vertigo prior to the vaccination

vertigo : Case 190: ID NC6-23415-47382

Vertigo

vertigo : Case 191: ID WKE-14381-01905

Dizziness/vertigo

vertigo : Case 192: ID KCV-17947-26418

Vertigo probably not related to vaccine

vertigo : Case 193: ID PYD-46478-88384

Vertigo/dizziness

vertigo : Case 194: ID 2MS-24790-17505

Vertigo

vertigo : Case 195: ID MVW-13564-61616

Severe vertigo 12 hr after injection, resolved after 5 hr

vertigo : Case 196: ID 6FQ-14901-32846

vertigo

vertigo : Case 197: ID R6N-30836-82801

Vertigo and Tingling in the fingers Paresthesia

vertigo : Case 198: ID A44-81485-51398

No symptoms today, but I experienced dizziness/vertigo on Monday (12/21/20), roughly 40 hours from when I got the vaccine

vertigo : Case 199: ID DKS-22125-11348

Contacted hospital employee health, was rapid tested for COVID today, negative. Set up next available appointment with my PCP

Vertigo, tingling, internal vibrations, frontal head pressure,

vertigo : Case 200: ID 6AS-32200-84535

Vertigo

vertigo : Case 484: ID QEL-29115-82520
Vertigo. I suffer from vertigo occasionally. I am on medication that should work soon. It makes me very tired. My doctor doesn't think that it is related to the vaccine. He has prescribed 25 mg of meclizine three times a day.

Vertigo

vertigo : Case 562: ID 7D6-17154-30269

I had more symptoms yesterday after my first check in. Today was less-so but yesterday, I had overly high energy for a couple of hours then later had a couple of hours when I was super sleepy and felt lightheaded and dizzy - some vertigo, almost feverish (I should have said yes to the feverish question prior to this), mild sore throat, muscle aches, mild headache like a band of pressure around my head around the forehead area, a bit buzzy. It felt to me like I was about to get sick with a cold or flu but then didn't. Slept fine and intentionally slept in. Woke with a headache and had mild nausea and low energy all day

with one instance of loose stools but not full diarrhea. Feeling better throughout the day, just not fully back to normal yet. Interesting to have experienced my body's immune system clearly revving up to respond to this!

I regularly go to the gym. About 5-6 days after my first injection, I began having issues with vertigo/dizziness while using the treadmill. I just realized a couple of days ago that the only change that had happened was the vaccine. It is like my eyes/brain and feet can't sync up. It is still going on. I'm not sure if this could be a side effect.

I saw an ENT. Ive been given medication. Im resting and hope to be feeling better soon. Again I dont know if this is to do with the vaccine or simply bad timing.

I have a viral ear infection which causes bad vertigo and nausea as well as hearing loss. Seems odd this happened just after my vaccine. However I dont know if its due to my vaccine.

Vertigo

vertigo : Case 2054: ID DZW-31162-99721

Received covid vaccine over a week ago. Only symptom was very sore injection site- swollen, hot and painful fir 3 days. Then fine until 5 days ago when had severe vertigo, diarrhea and chills and vomiting. Was in ER. They thought I had covid, but test for covid was negative. A second pcr test was also negative. Sent home as oxygen level at 98%. Chest X-rays clear. Cat scan clear.

Slight vertigo

vertigo : Case 2199: ID 2TL-33599-32806

Still have some dizziness/vertigo

vertigo : Case 2200: ID SD8-99457-80970

None of my symptoms are getting any better they are getting worse. I am having the shakes still and its getting worse its like tremors my hands shake my tongue shakes. I have also developed a rash not anywhere close to the injection site. Tylenol or Advil do not bring the fevers down nor do they help the pain. I am unable to sleep. My blood sugar which is usually well controlled has been quadruple what it normally is. My blood pressure is elevated very high and my pulse is racing constantly. I am experiencing vertigo. I am experiencing shortness of breath hard to catch my breath and have constant pressure in my chest like someone is sitting on it. Symptoms are getting worse and i am more and more fatigued. I have passed out twice. My face is having muscle spasms.

vertigo : Case 2201: ID LJW-20118-71331

Vertigo that may or may not be related to the vaccine

vertigo : Case 2266: ID 5RT-12260-48692

I received the vaccine on 01/13/21. When they gave me the vaccine I felt pressure in my chest and pressure in my head. I couldn't breathe very well and had to be coughing from time to time. Day # 2 (1/14/21) I continued with the pressure in my chest and a little cough, a lot of pain in my arm. Day # 3 (01/15/20) my chest feels better, I can breathe much better now, my arm still hurts. Day # 4 (01/16/21) today I woke up at midnight with palpitations and a bit of vertigo, I didn't feel very well, but half an hour later I felt better.

My next door neighbor is a paramedic who works on our local ambulance. I called her around 11 p.m. last night and she came over with her equipment and checked my oxygen levels, pulse, blood pressure, and she did a couple of EKGs to be sure my heart was okay. She stayed with me for a couple of hours cuz we debated whether or not to go on to the hospital, but eventually the symptoms subsided and she went back home.

I checked off these symptoms on the above list, because although I am not actually having anything other than fatigue today, yesterday evening, about 7 hours after having received the shot, I suddenly had extreme dizziness and intense nausea, although I did not ever throw up. I broke into a cold sweat, and had symptoms of moderate to severe vertigo. They were bad enough that I called a friend who is a paramedic, who came over and checked my vitals. Everything was fine except my pulse was very low, around 47 to 50. We debated whether or not she should take me to the hospital in the ambulance for further evaluation, but decided just to wait, and eventually the symptoms subsided enough that I could open my eyes and I could turn my head without feeling like I was going to throw up. I finally got some sleep this morning and I'm feeling better now, although still tired.

Severe vertigo. Cant stand up nor sit up.

vertigo : Case 2659: ID QUT-68334-36075

These WERE all the symptoms that I started to experience late evening than worsening severely through the early morning (2-6am). That next morning Thursday January 21st, from 5am to 6am was when I felt the absolute worse. I started having severe dizzy spells, profuse sweating with severe chills, yet burning hot & extremely calm. My abdomen was so swollen it was noticeably enlarged, skin was so tight it caused painful sensations from just wearing under garments & clothing. It hurt to my abdomen to breathe. I felt hot to the touch, my father stated I felt incredibly hot. Temp was unable to obtain during that time but shortly after was slightly elevated 100.6°F. During that time frame (5-6am the worse), as I had woken my father at that point because I felt extremely weird, hard to describe.

Dizzy/vertigo type, HR racing, felt like my entire body was shaking as if I was very cold. I have my own prescription medications I must take in the morning but I added Tylenol & stomach ache medication. My back hurt severely- especially in my vertebrae I had surgery (L4-S1), felt extremely inflamed hurt to move around at all. I haven't had that high of a pain level in a year or more. My kidneys hurt, I have previous bladder /kidney pain due to neurological damage from back injury so I know back pain from kidney pain. After that period finally passed, I was at work at my hospital where several other coworkers had received their 2nd shot. Most had several moderate to severe issues & continued to feel horrible like I was. It did not get any better, I continued to have body aches, chills, sweating spontaneously, headaches, on& off abdominal bloating & severe cramping like experienced that night before. I had to leave work early that day. Once home, I fell straight to sleep without any issues, slept solid. I had some reminiscence of mild/moderate stomach cramps, slight diarrhea but only first thing in the morning (4-5am). After that I felt great!! I felt 100% normal, energy level normal, appetite back, almost no pain in the muscle of the back of my arm (injection site muscle was mildly sore at all) it was actually only my tricep that hurt severely, I could barely move or use it the next day (on the 21st). By the 22nd, like I said before I was back to my normal self. I did not regret getting my vaccine & did explain to

others, I'd rather have 24 hours of uncomfortable symptoms than be hospitalized, on a vent or dead.

Hot flashes, dizziness, vertigo

vertigo : Case 2678: ID VAP-19968-64070

I did not report this before but my first three days I had some side effects but. I had headache and I committed but the scary one was that had vertigo the second day I woke up. I could not move for most of the day. I contacted my neurologist. They gave me a over the counter med that helped me to feel more stable. I wonder if the fact I have seizures and take a drug for my condition Aptiom will make the second dose will be even worse. Any guidance would be helpful.

vertigo : Case 2784: ID MQY-23068-86236

I should have reported this on Thursday. On Wednesday I experienced vertigo. I have BPPV, the residual from Labrynthitis, 15 years ago. I had hoped it would have improved by now but each day it has become a little worse. I usually do not experience vertigo to this extent. Last night I needed to sleep sitting up in a chair. My husband, a retired physician, wonders if this episode is from the vaccine? It started approximately 22 hours after I received the vaccine.
