

Microlent Systems Pvt. Ltd.

An ISO 9001:2015 Certified Company

Portfolio

Introduction

A quick summary about us

Welcome to Microlent, a premier technology solutions provider dedicated to transforming businesses through innovative and cutting-edge technology. Since our inception in 2014, we have been at the forefront of delivering top-notch software development, web and mobile application development, and expert SaaS solutions. Our diverse clientele includes large IT recruitment agencies, startups, small and medium IT recruitment agencies, large IT services companies, IT consultants, medical hardware manufacturing companies, SME non-IT business owners, and medium IT services companies.

Our Journey and Achievements

Microlent's journey is marked by significant milestones and achievements. We have had the privilege of partnering with major clients such as Bristlecone, the Government of Brunei, Costamaria, mysp, scilife, and Red Ochre. Our commitment to excellence has been recognized globally, earning us the prestigious Global Gandhi Award in the Parliament of the UK. We are also proud to be ISO 9001:2015 certified, reflecting our dedication to maintaining high standards of quality and service.

Our Unique Approach

What sets Microlent apart is our problem-solving mindset and our ability to leverage various technologies to deliver the best solutions within our clients' budgets and timelines. Our core competencies span web applications using NodeJS, .NET Core, PHP-Laravel, ReactJS, Redux, TypeScript, VueJS, and Angular, as well as mobile app development with React Native, Flutter, Xamarin, Android, Kotlin, Swift, and Objective-C. Additionally, we have developed our own RPA technology for web and desktop applications, automating repetitive tasks to enhance efficiency. We are also specialized in building SaaS applications, understanding their unique journey and processes to deliver effective solutions.

Introduction

A quick summary about us

Industries Served

Our expertise extends across various industries, including marine, pharma, healthcare, education, logistics, BFSI, hospitality, and aviation. This diverse experience allows us to tailor our solutions to meet the specific needs of each sector, driving growth and innovation.

Impact and Vision

Microlent has consistently helped clients achieve 15-20% revenue growth through our tailored solutions. Our vision is to expand our presence across multiple countries, with a particular focus on becoming a leader in SaaS application development. We aim to empower more businesses with our technology, fostering innovation and efficiency.

Culture and Values

At Microlent, we pride ourselves on a strong company culture and values. Our first customer, Tim Oakley from Perth, Australia, remains with us to this day, a testament to our commitment to building lasting relationships. We boast an exceptionally low attrition rate, with team members who have been with us since their early careers. We believe in lifelong learning, continually exploring new technologies to stay ahead of the curve. Our team members are dedicated and responsible, ensuring that we address any challenges our customers face with innovative technological solutions.

Our Vision

The future we want to create

“*At Microlent, our vision is to be recognized as the premier technology solution provider, transforming businesses across the globe with innovative, efficient, and scalable solutions. We strive to lead the industry by continuously embracing cutting-edge technologies, delivering unparalleled quality, and fostering long-term partnerships with our clients.*

We aim to empower businesses of all sizes—from startups to large enterprises—across diverse industries by providing tailor-made solutions that drive growth, enhance efficiency, and create lasting value. By expanding our global presence and focusing on emerging technologies such as SaaS applications, IoT integration, and RPA, we aspire to be at the forefront of the digital transformation journey for our clients.

Our Mission

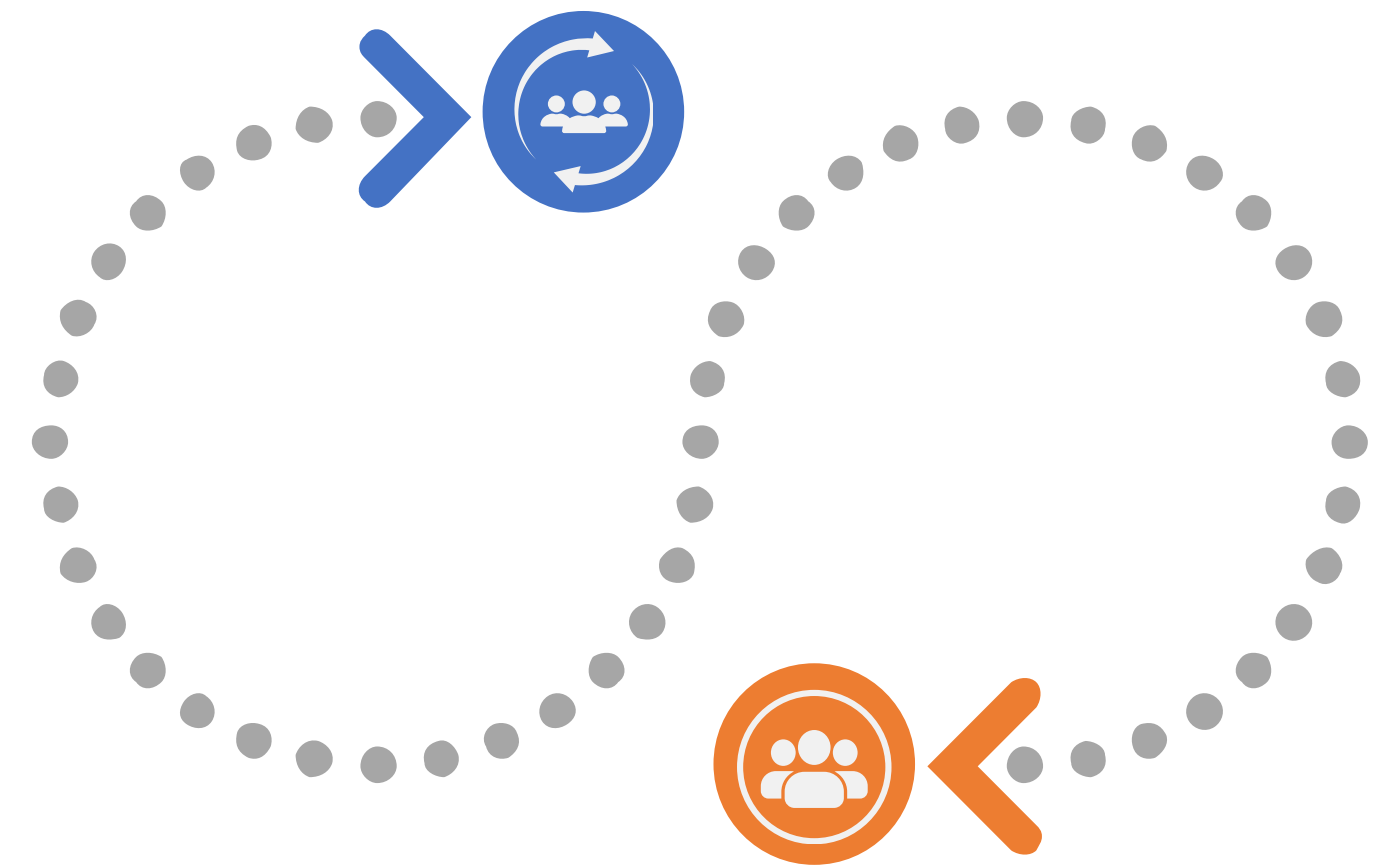

Turning our vision into practice by providing “Simple Automation for Complex Problems”

Towards our customers:

At Microlent, our mission is to deliver cutting-edge technology solutions that empower businesses to thrive in the digital age. We are dedicated to providing innovative, custom-built software, web and mobile applications, SaaS solutions, IoT integration, and RPA technologies that address the unique challenges of our clients and drive significant value. Our approach is rooted in a deep understanding of our clients' needs, leveraging our technical expertise and industry knowledge to develop solutions that enhance efficiency, optimize operations, and foster growth. We are committed to maintaining the highest standards of quality, integrity, and customer satisfaction in everything we do.

Towards our people:

At Microlent, we believe that our people are our greatest asset. We are committed to fostering a culture of continuous learning, collaboration, and innovation. We provide our team with opportunities to grow professionally and personally, ensuring they stay at the forefront of technological advancements. Our mission is to create an inclusive and supportive work environment where every individual feels valued and empowered to contribute to our collective success. By investing in our people, we ensure that Microlent remains a leader in delivering exceptional technology solutions.

Our Values

What talk we want to walk

Towards our customers:

- » Building strong relationships
- » Integrity, respect and honesty
- » Excellent customer service
- » Ensuring maximum value

What makes us different

We understand that every business is unique. Our approach involves a deep understanding of our clients' needs and creating custom-built solutions that align perfectly with their specific requirements, enhancing efficiency and fostering growth.

Tailored Solutions

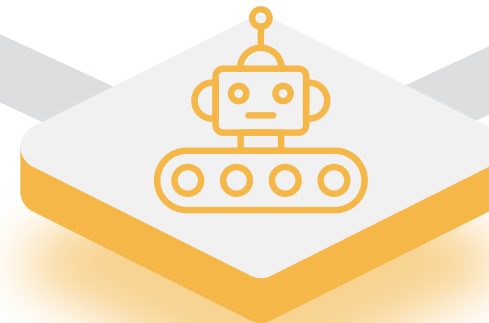

Specializing in SaaS applications, we understand the unique journey and processes involved in building scalable and secure cloud-based SaaS solutions. Our expertise ensures that our SaaS offerings meet the highest standards of performance and reliability.

Expertise in SaaS Development

Innovative Problem Solvers

At Microlent, we pride ourselves on being innovative problem solvers. We leverage diverse technologies to provide the best solutions within our clients' budgets and timelines, ensuring we address their unique challenges effectively.

Proprietary RPA Technology

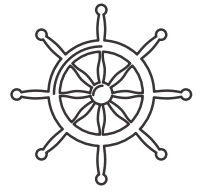

We have developed our own Robotic Process Automation (RPA) technology for web and desktop applications. This proprietary tool allows us to replace repetitive human activities with automated processes, significantly improving operational efficiency.

Commitment to Quality and Integrity

Our commitment to maintaining the highest standards of quality, integrity, and customer satisfaction sets us apart. We are dedicated to delivering exceptional results and building long-lasting relationships with our clients based on trust and excellence.

Marine

Lemur Maritime

<https://lemurmaritime.com>

A web-based application designed to streamline vessel inspections, risk management, and reporting for ship management companies. Users can create checklists for various aspects of a vessel inspection, including safety equipment, machinery, and cargo holds. The app would guide users through the inspection process, allowing them to record observations, photos, and findings.

Costamare

<https://www.costamare.com>

A web-based application designed to streamline vessel inspections, , and reporting for ship management companies. Users can create checklists for various aspects of a vessel inspection, including safety equipment, machinery, and cargo holds. The app would guide users through the inspection process, allowing them to record observations, photos, and findings.

The screenshot shows the 'Inspections' dashboard for a user named George Karabesis. The interface includes a sidebar with navigation options like Dashboard, Overview, Management, Inspections, View Inspections, Add Inspection, Checklist Templates, Questions, Reports, and Administration. The main content area features a table of inspection records, a form for creating or updating an inspection, and a progress summary for the selected inspection.

Discover How Teachers Benefit from AfterSchool

AfterSchool is designed by professional teachers globally, drawing from real classroom experiences. Our service simplifies tasks such as lesson planning and assessment. Furthermore, we continuously evolve based on feedback from both teachers and students.

Through this platform, the giving of assessments become more innovative. The students experienced the teaching and learning beyond the four corners of the room.

It saves me valuable time and energy. The ability to track student progress has greatly enhanced the learning outcomes in my classroom.

Designed for customisation, serving teachers from every country, for every subject.

Whether it's adapting syllabus to align with local curriculum or personalising content to engage students from different cultural backgrounds, our tool empowers teachers to deliver high-quality education tailored to their unique contexts.

Create detailed and elegant classroom syllabus in easy way.

We provide a fully customizable tool, allowing teachers to easily personalise their own syllabus and share content such as files, slides, or YouTube videos, ensuring that every student receives an enriching learning experience.

INSD AWARDS

Vision

INSD was established in October 2011. From the beginning, our goal was to become India's leading arts, design, media, and luxury school.

Our fore-founders—Late Mr. LV Sagarshih, ex-director general of NIFT, and Mr. Sunjay Aggarwal—believed that access to good quality design education arguably became a challenge over the years. For students who want and deserve access to good quality education in their hometowns, it is for them that INSD got founded.

Why INSD?

With a focus on international standards and regular collaborations with the industry's top minds, we hope to see our country's raw talent develop into skilled professionals capable of taking on transformational leadership roles in the near future.

What makes us unique is our ability to make education a great experience. Right from bringing design education to a centrally-located venue in your city to organizing fun events that stimulate learning and growth, we are all about creating lifelong experiences that you will cherish forever.

Values and Journey

From the very start, we have also promoted entrepreneurship for enthusiasts of the education industry who've shared a common dream with us: preparing future leaders in our country. In the journey of 10 years, INSD has been able to establish a network of over 50+ campuses in India and 5+ campuses globally. This has been made possible with the help of our partners (franchisees).

Our graduates are working with some of the best in the industry. They have contributed to some iconic pieces of work in their respective fields of expertise. Not only that, but some of our Alumni have founded design firms that are excelling and transcending boundaries.

My Magic Moment

My Magic Moment is a groundbreaking project that revolutionizes the reading experience by offering personalized reading videos. Through a feature-rich mobile app and user-friendly admin panel, users can create unique, engaging videos tailored to their favorite books. This innovation fosters deeper engagement, accessibility, and emotional connection to literature, making reading more dynamic and enjoyable for users of all ages.

EZPZ

It is a mobile app that helps users plan their trips by providing personalized recommendations for activities, attractions, accommodations, and transportation. The app is powered by the ChatGPT API, which generates trip plans based on the user's travel preferences.

Finance and Budget

Project finance involves securing funding for a specific venture by creating a separate legal entity (SPV) responsible for its development, construction, and operation. Lenders rely on the project's anticipated revenues for repayment and security. Budgeting is a financial plan outlining projected revenues, expenses, and cash flow for a specified period, ensuring effective resource management and financial viability.

A photograph of a shipping yard with numerous colorful intermodal containers stacked in rows. A large blue gantry crane is visible in the background against a blue sky with light clouds. A chain-link fence runs across the foreground.

Logistics

Track Right

<https://trackright.africa>

This system facilitates the shipping of products from the shipper's office to the customer by tracking the delivery process. It creates consignments and notifies available drivers via mobile phone. Upon accepting a trip, drivers receive the pick-up and drop-off locations along with an optimized route to ensure timely delivery. The system tracks the driver's location, provides a link to the route on Google Maps, and updates the customer on the delivery status through SMS and email. Additionally, it solicits customer feedback to improve service quality.

The screenshot displays the Track Right dashboard interface. At the top left, there is a 'Vehicle Report' header. Below it, a 'Filters' section contains several input fields: 'Report Type' (set to 'Consignments'), 'Vehicle No', 'Consignor', 'Transporter', 'Duration' (set to 'Custom'), and 'Date Range' (set to '11/12/2020 - 11/01/2021'). A 'Clear All' button is located at the bottom right of the filters. Below the filters, a 'Total Consignments: 691' section features a pie chart and a legend with 15 colored segments, each representing a different vehicle ID and its corresponding number of consignments. To the right, a map shows the geographical context with labels for Kenya, Mogadishu, Arusha, Mombasa, Dar es Salaam, Comoros, Mayotte, Madagascar, Antananarivo, Réunion, and Mauritius. On the far right, a 'VEHICLES' panel shows a status summary: 'FREE (16)', 'BUSY (10)', and 'INACT'. Below this, two vehicle entries are listed: 'KAY585F- EICHER' with driver 'Fredrick Kasyoka' and phone number '0793377503', and 'KBJ318E- EICHER' with phone number '0721561306' and driver 'Fredrick Kasyoka'.

Jet Gez

With the rise of e-commerce and on-demand services, consumers expect quick and easy access to LPG products and services. This has led to the development of new delivery and distribution models, such as mobile LPG pumps and online ordering platforms.

Glukk is an e-commerce website which allows end users to order their tailor made window decoration and install the window decoration themselves (with a specific focus on wooden blinds and honeycomb blinds). Glukk should be Mobile-first/friendly website, and responsive design.

Safe Rag

Safe Rag is your go-to online destination for navigating the complexities of the commercial cotton cloth industry. In an industry where every day's work is challenging, we provide valuable insights, tools, and resources to help you streamline operations and drive success. From sourcing raw materials to production optimization, Safe Rag is here to make your hard day's work a little easier. Explore our website today and stay ahead in the fast-paced world of commercial cotton cloth manufacturing.

IT'S NOT SAFE UNLESS IT'S SAFERAG®

Safe means safe, which is why so many in the automotive industries and in the mining sectors are turning to SafeRag for its innovative technology.

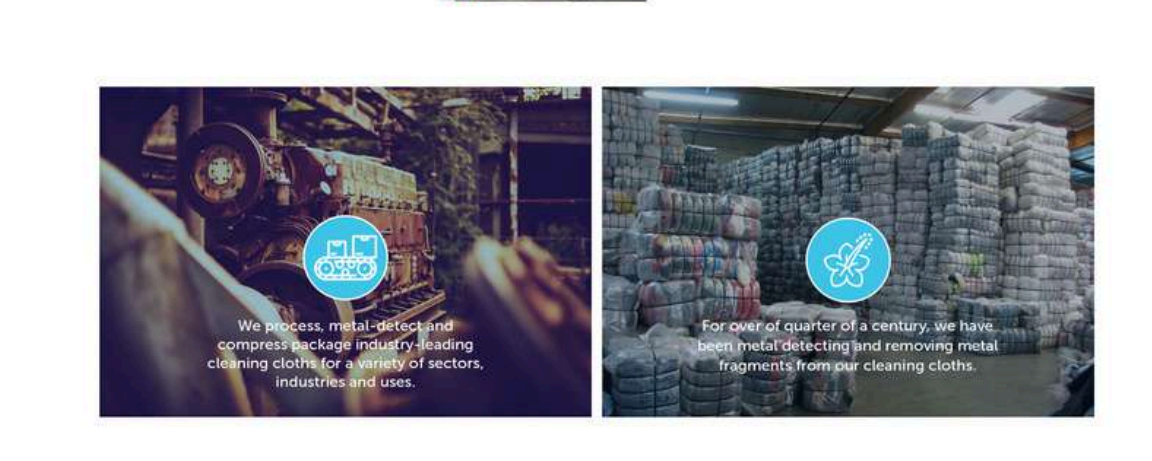

WATCH OUR VIDEO

INDUSTRIAL AND COMMERCIAL COTTON CLOTHS

The automotive or manufacturing industry is a hard day's work to manage. You shouldn't have to worry about the clean-ups caused by spills, improper usage of machinery, debris from the products you use, etc.
— What you need is to buy rags that are free of any metal, tailor-made for your industry.

Not all materials are created equal. That's why we only source our rags from premium quality used clothing that's been sorted and cut for your specific purpose.

We process, metal-detect and compress package industry-leading cleaning cloths for a variety of sectors, industries and uses.

For over a quarter of a century, we have been metal detecting and removing metal fragments from our cleaning cloths.

25 Years in the Game

Clean Cloth Cotton Traders is the registered owner of SafeRag® and the leading processor and provider of safe, recycled cleaning cloths in Western Australia.

Car Rental

It is an extensive expertise in luxury cars, enabling us to meet the needs of the most demanding clientele. We offer a wide selection of outstanding vehicles, including the very latest models with our partnership with the best luxury brands, while also providing a personalized service in the French Riviera and throughout Europe. The car you drive can make your journey the most incredible experience.

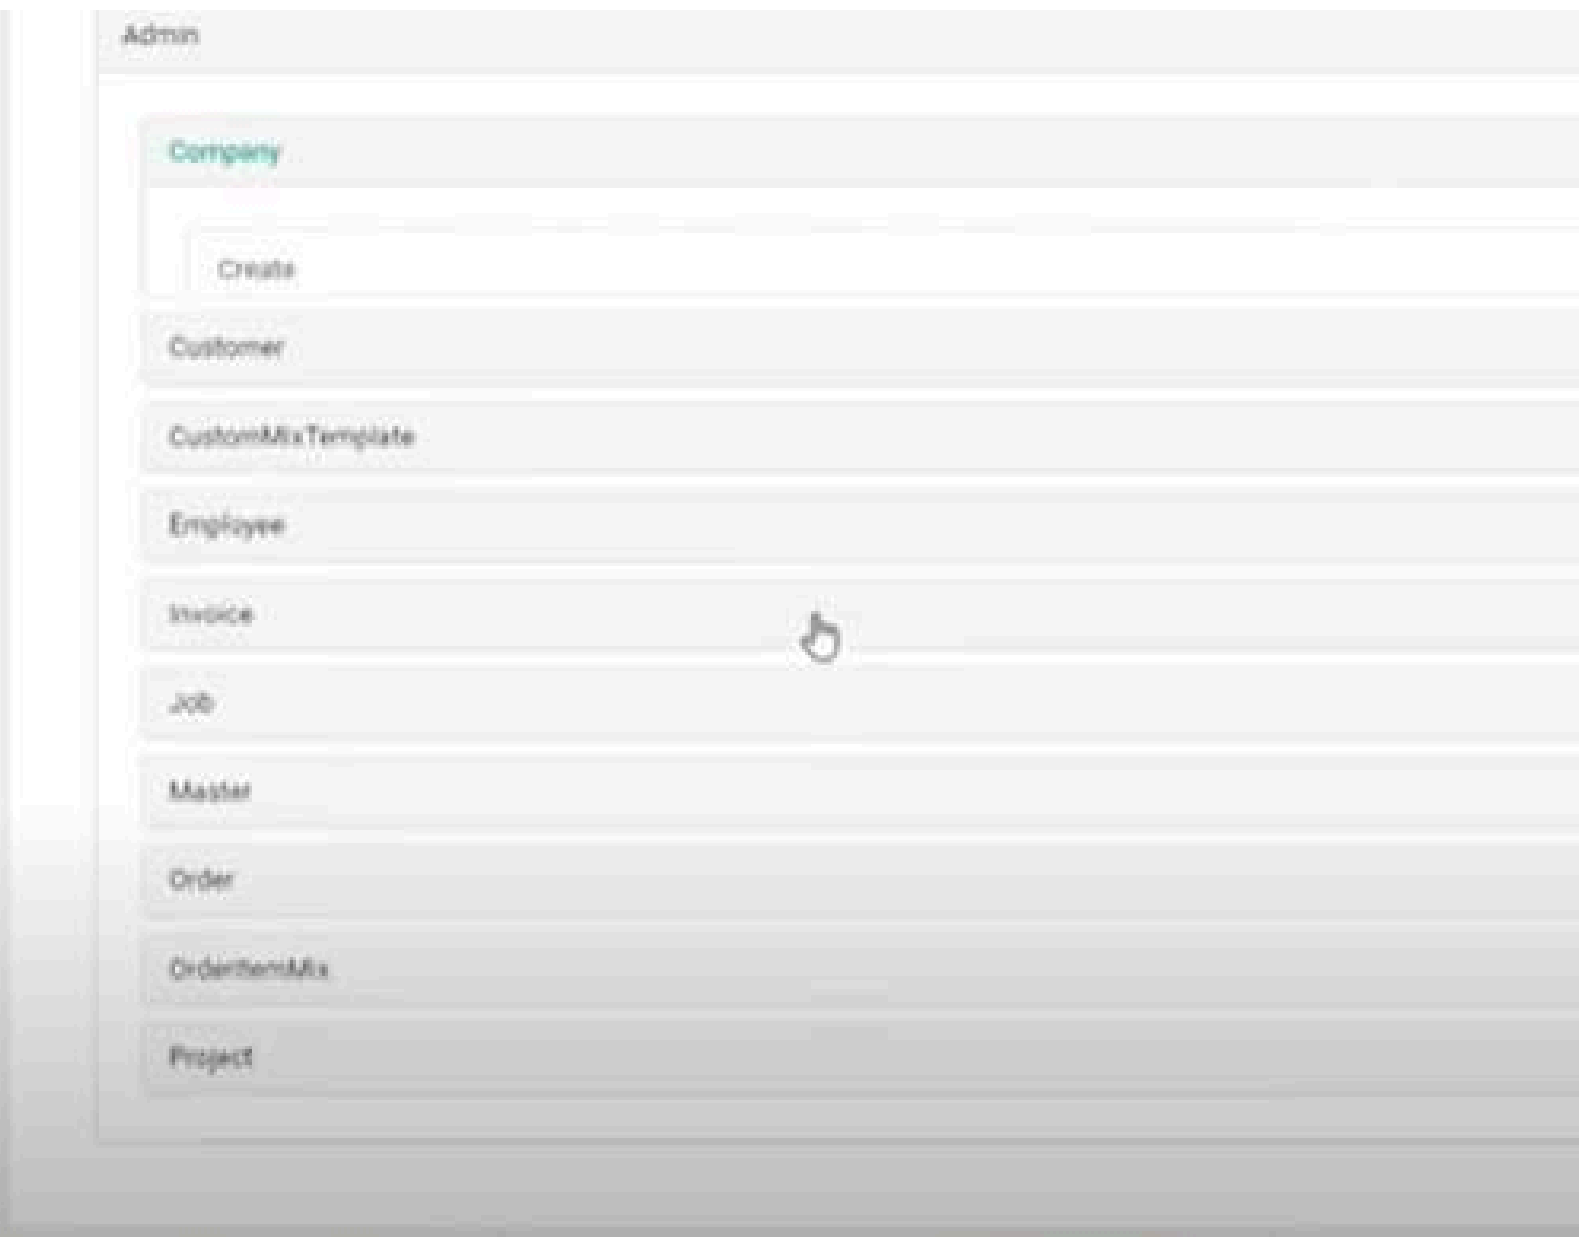

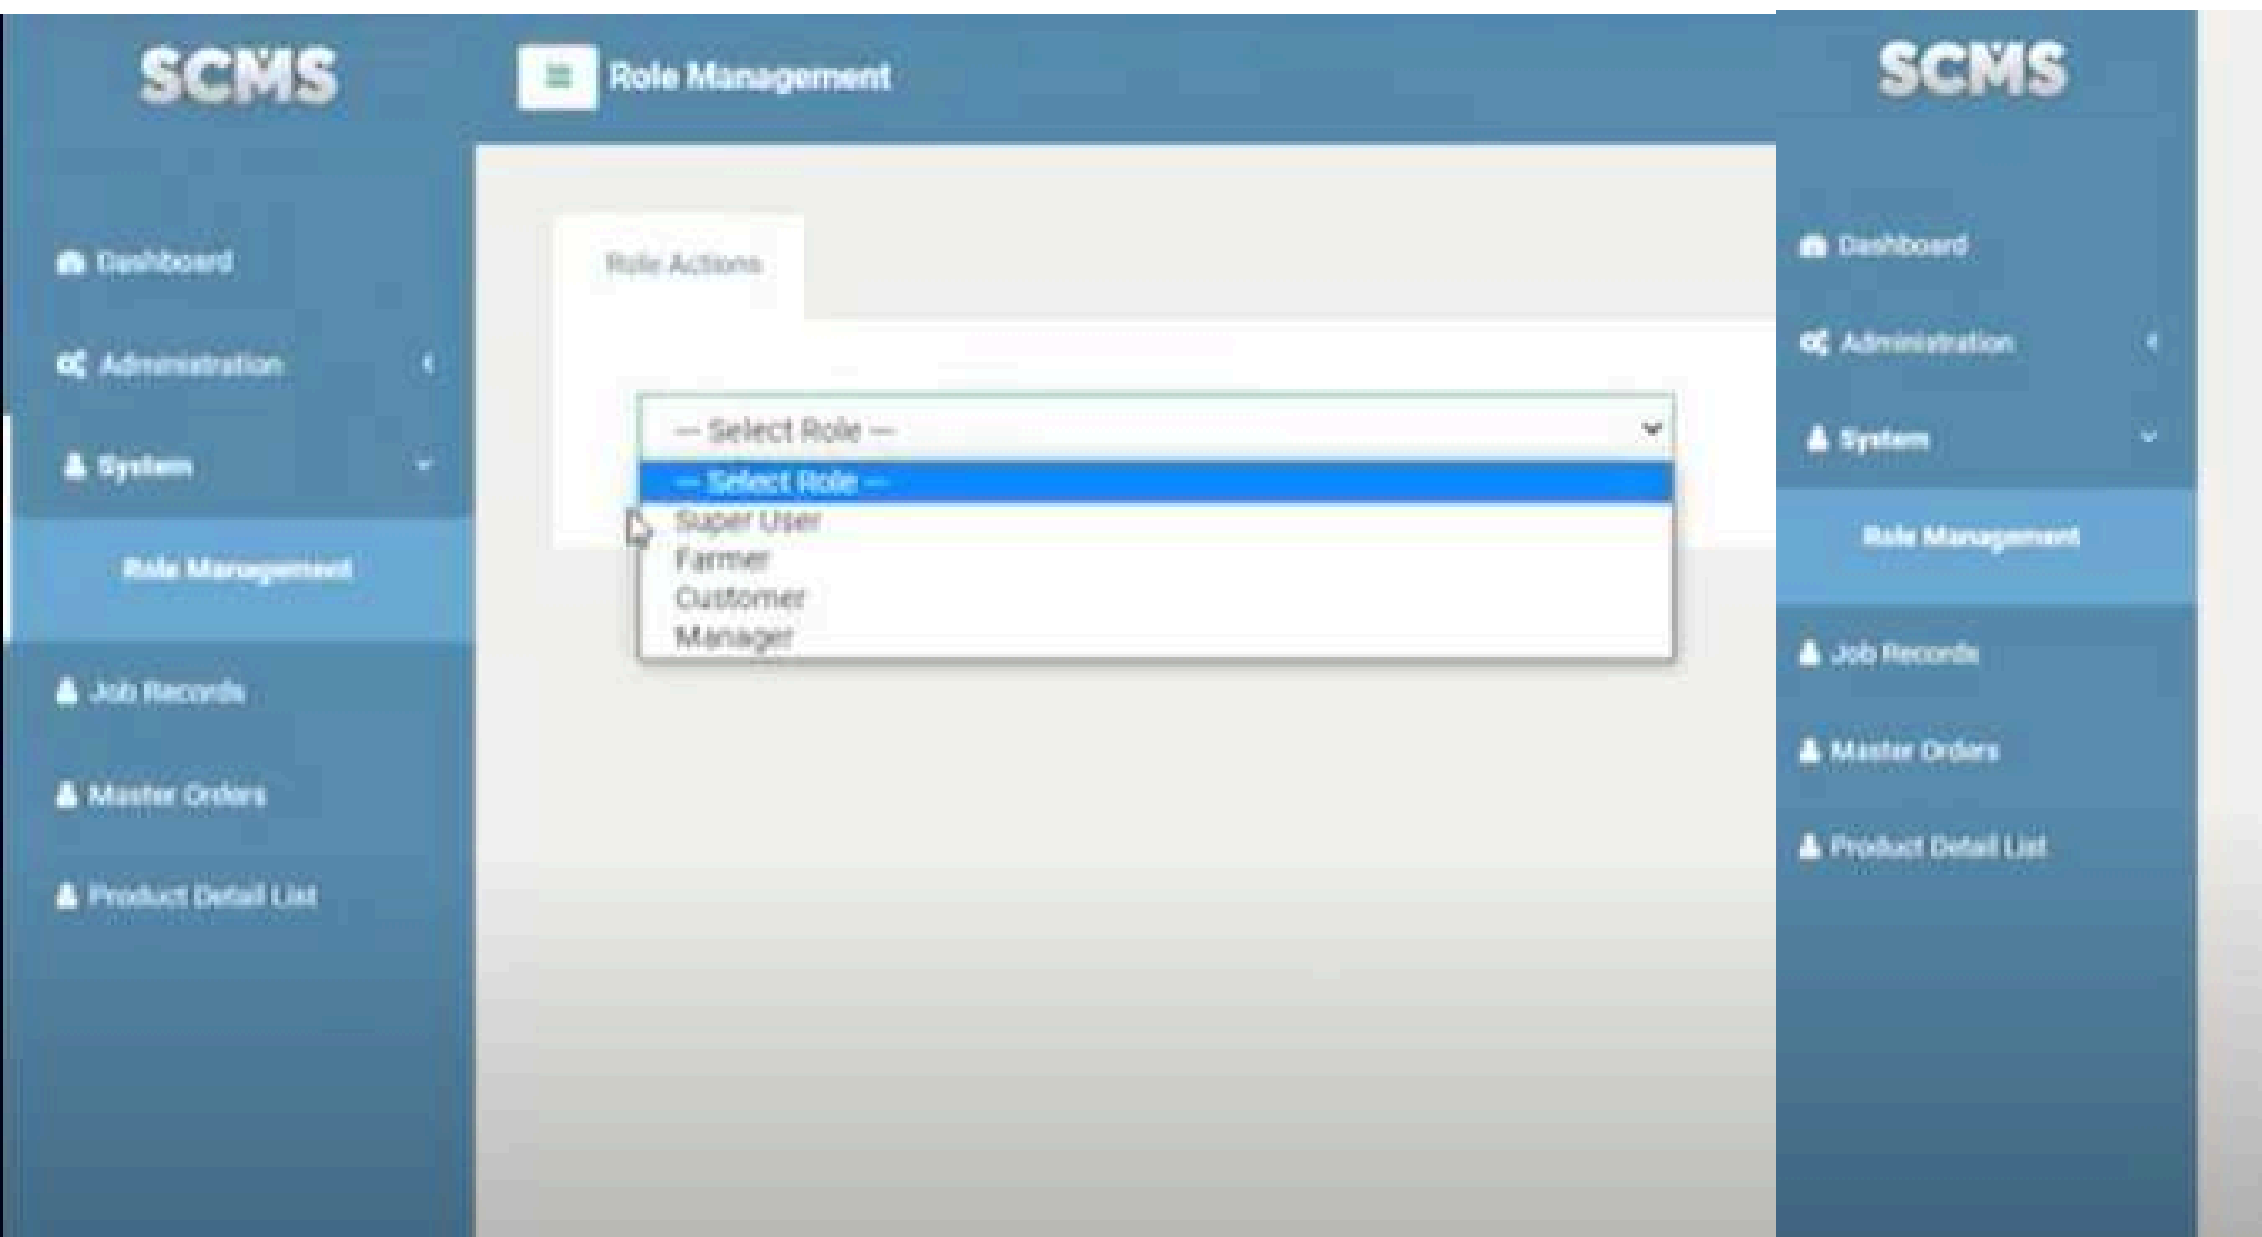

Agriculture

Seed Cleaner

The Seed Cleaner app streamlines farmers' order placements. If seeds are in stock, we process them with germination, purity checks, and weed removal; if not, we grow them first. We manage seed cold storage too. Two types of requests: single seeds or custom minimums. For custom blends, our platform calculates the ideal mix for the specified area.

Construction

CAMS

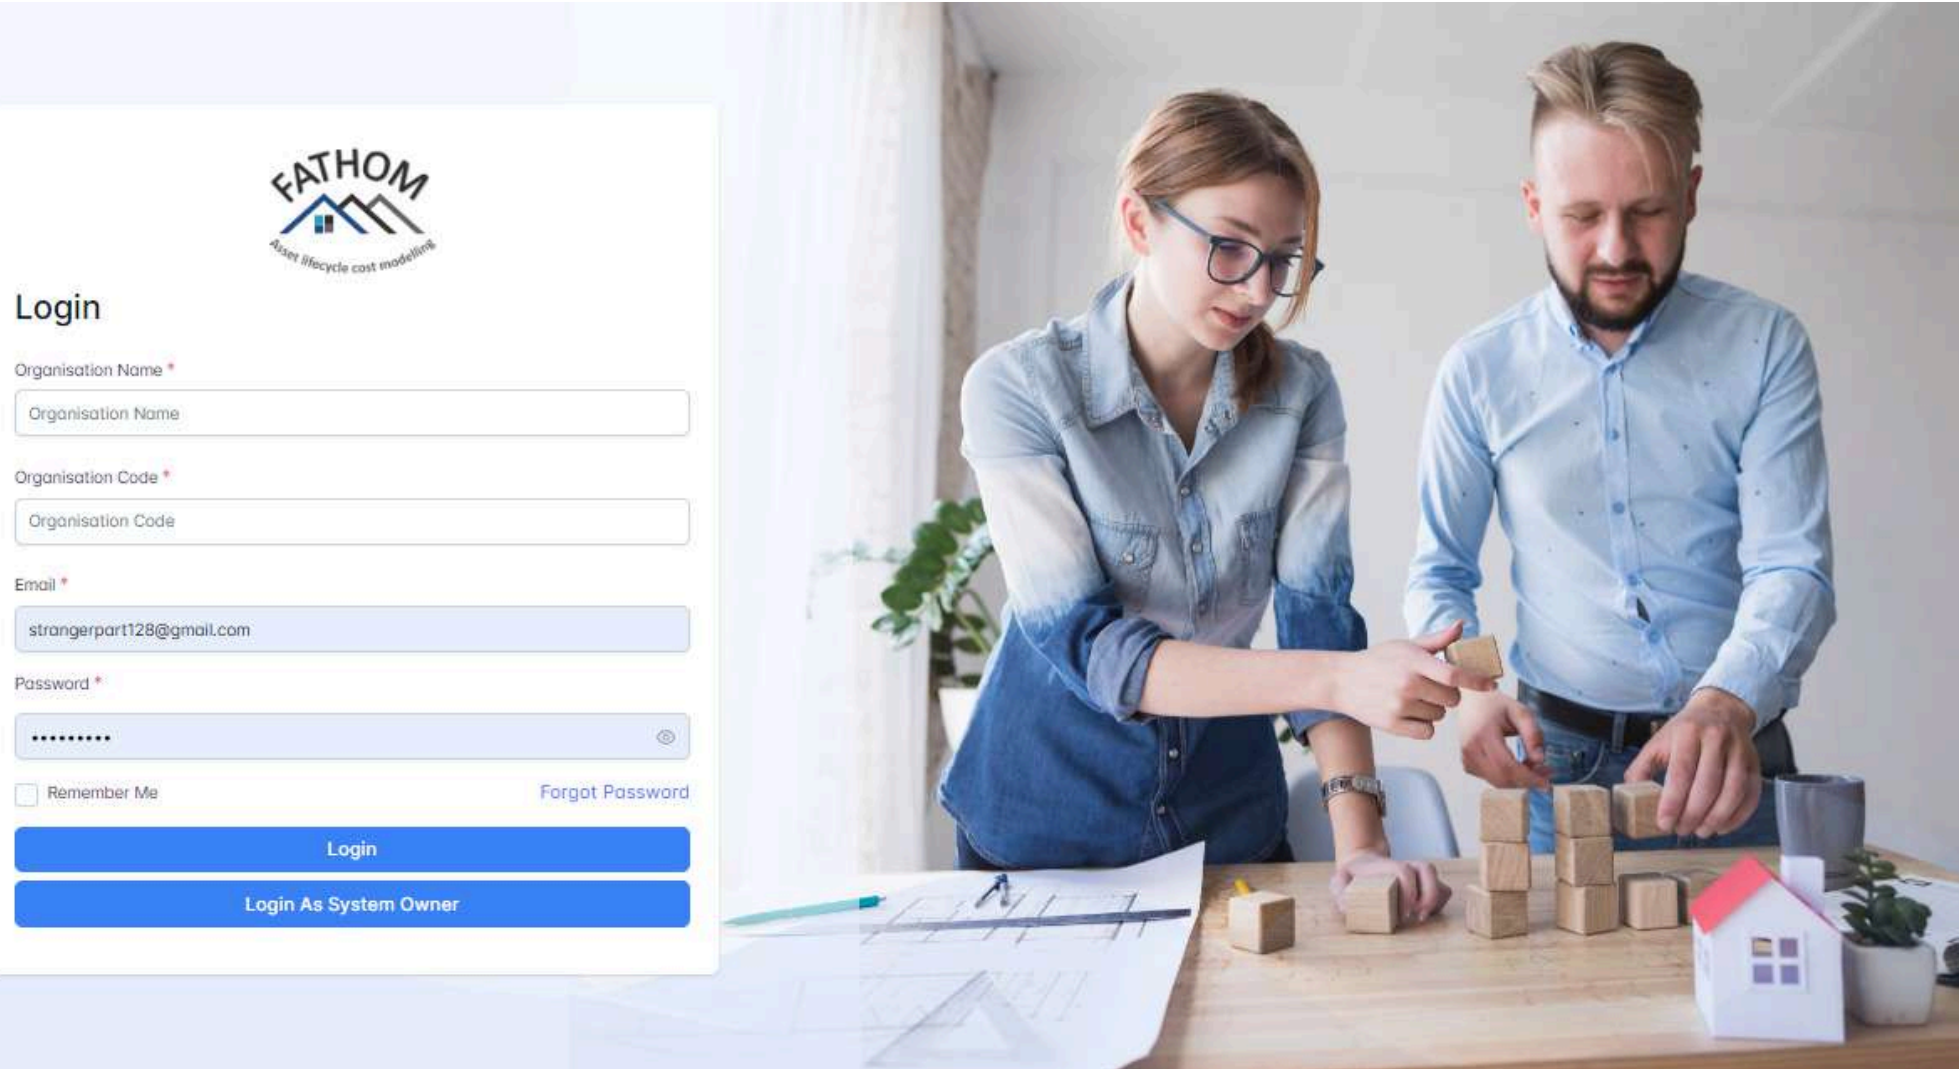

Whether you're a developer, housing association or manufacturer, our innovative software – ALCMS – compares whole-life benefits, costs and risks throughout the entire asset life cycle. ALCMS takes a holistic approach, looking at the wider benefits to society such as safety, sustainability and environmental impact. At Microlent, our specialists in asset management have brought expertise and understanding from other industries to develop ALCMS.

FATHOM

Fathome is a financial planning system that helps users manage their finances from early adulthood to retirement. It allows users to track and compare their expenses over the years, providing a comprehensive view of their financial health. This system aims to support informed financial decision-making throughout different life stages.

Conclusions & Recommendations

Based on our analysis, the traditional build provides the highest NPV. This is mostly down to the significantly lower construction costs when compared to the modular homes. The savings made by the modular homes through maintenance isn't enough to close the gap, even when adding in Social, Environmental + customer benefits. In order to close the gap of X, Magna would either need to seek additional grant money, increase rent or a mixture of both. Please refer to alternative scenario reports.

A background image of a crowd at a night event, with many hands raised in the air. The scene is dimly lit with blue and green ambient lighting, and some bright spotlights are visible in the distance. A dark blue semi-transparent oval is overlaid on the lower half of the image.

Clubs

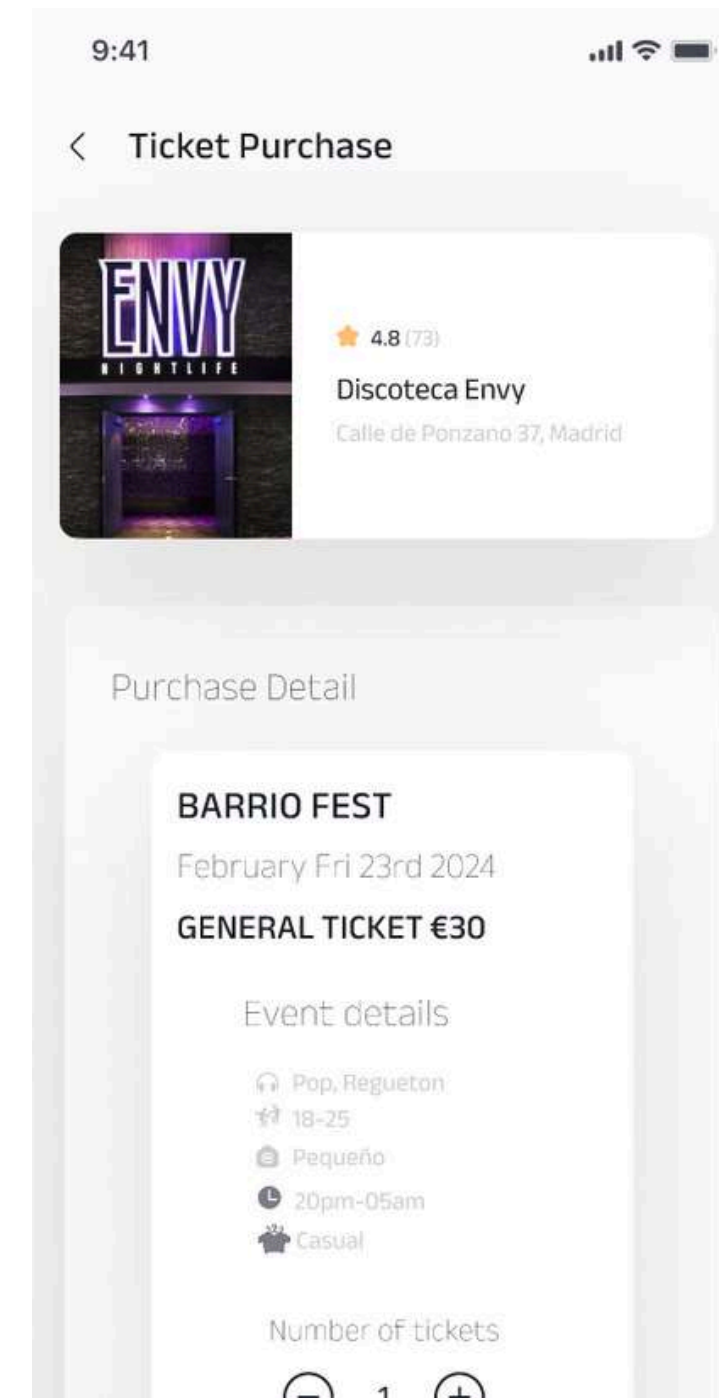

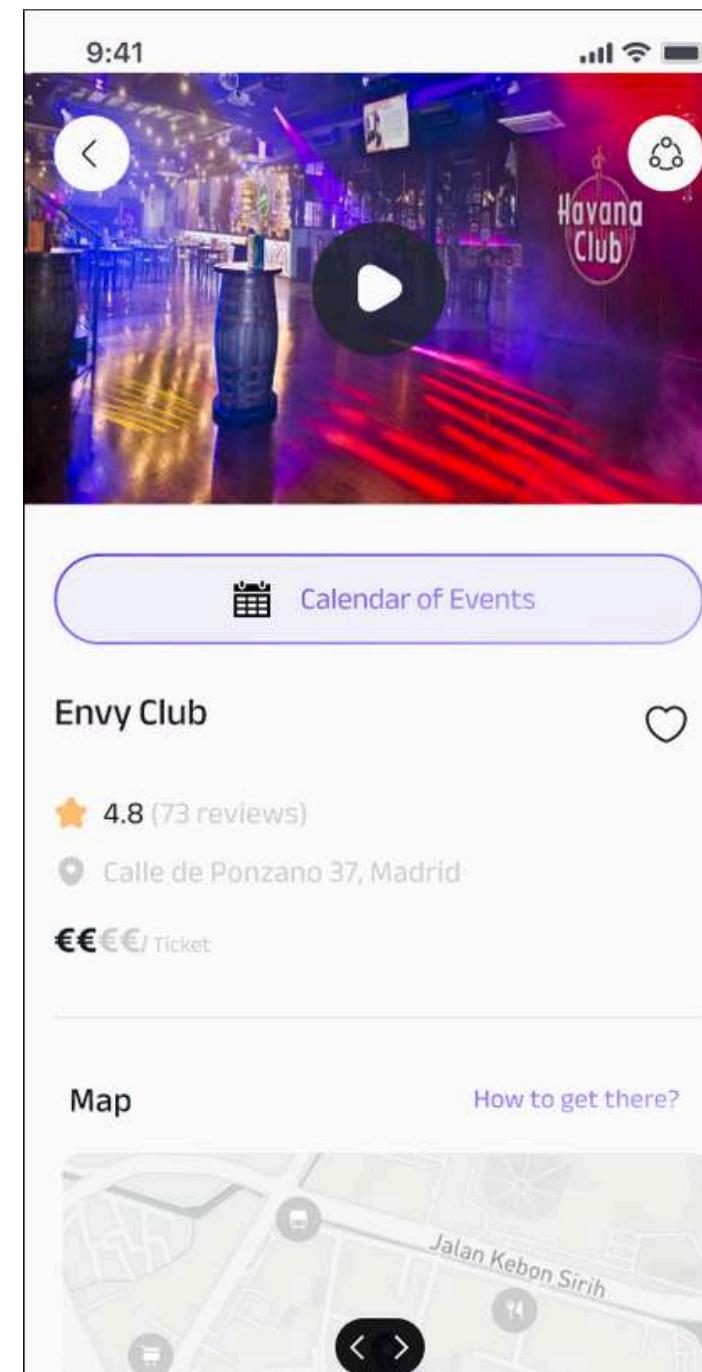

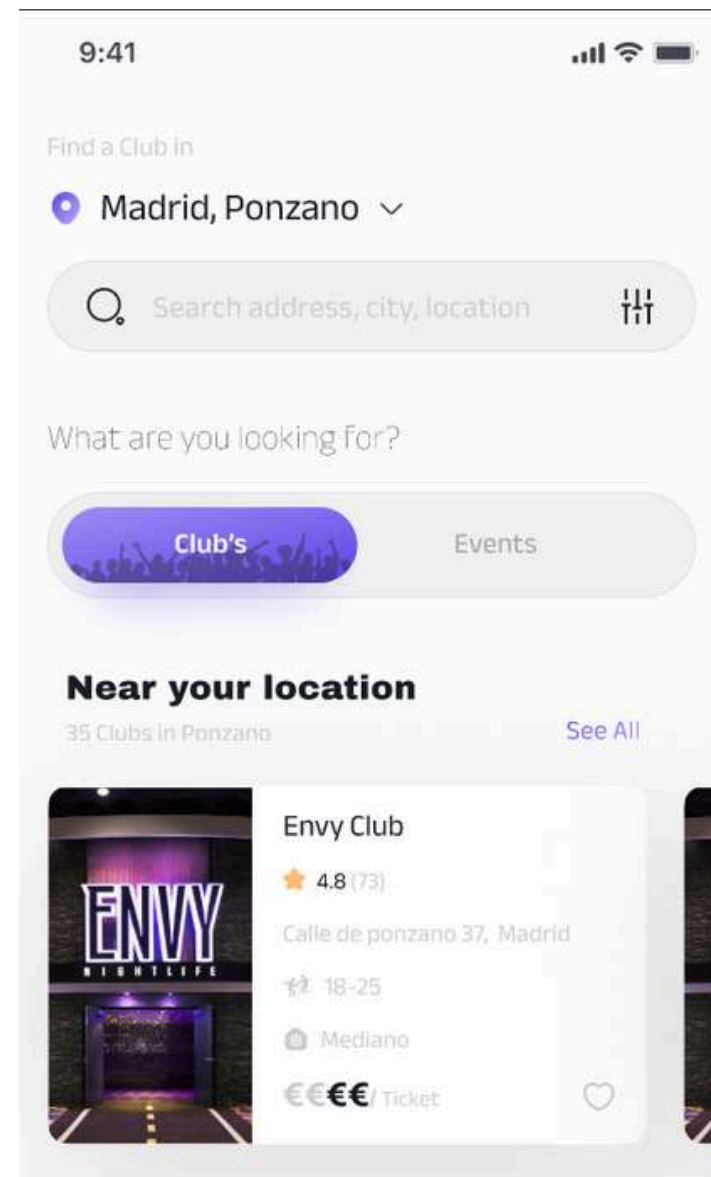

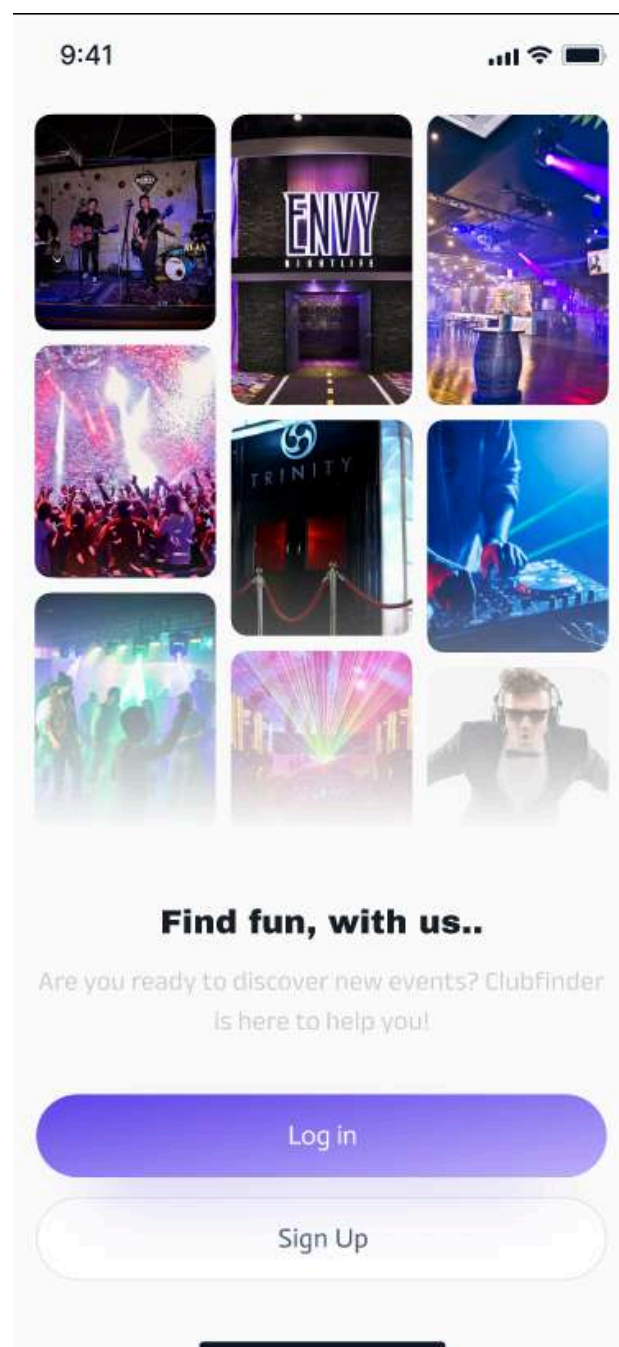

Gr8nitout

It is a mobile application revolutionizes the nightlife experience by simplifying the process of discovering nearby clubs and venues, supplemented with review and rating functionalities. Users can effortlessly locate clubs in their vicinity, access detailed venue information, and read reviews from fellow users. By contributing their own reviews and ratings, users actively participate in building a community-driven platform. This application enhances the nightlife experience by providing valuable insights and recommendations, fostering community engagement, and facilitating informed decision-making for club-goers.

Club Finder

Club Finder is a mobile app that locates nearby clubs and displays their upcoming events. Users can view event details and purchase tickets directly through the app. This platform makes discovering and attending club events convenient and hassle-free.

Sports

M - Star

M-Star is your ultimate companion for staying updated on live cricket matches. With real-time updates and a user-friendly interface, It provides instant access to match scores, player statistics, and game highlights. Whether you are a die-hard fan or a casual observer, It keeps you in the loop with all the action on the pitch.

The screenshot displays four main screens of the M-Star application:

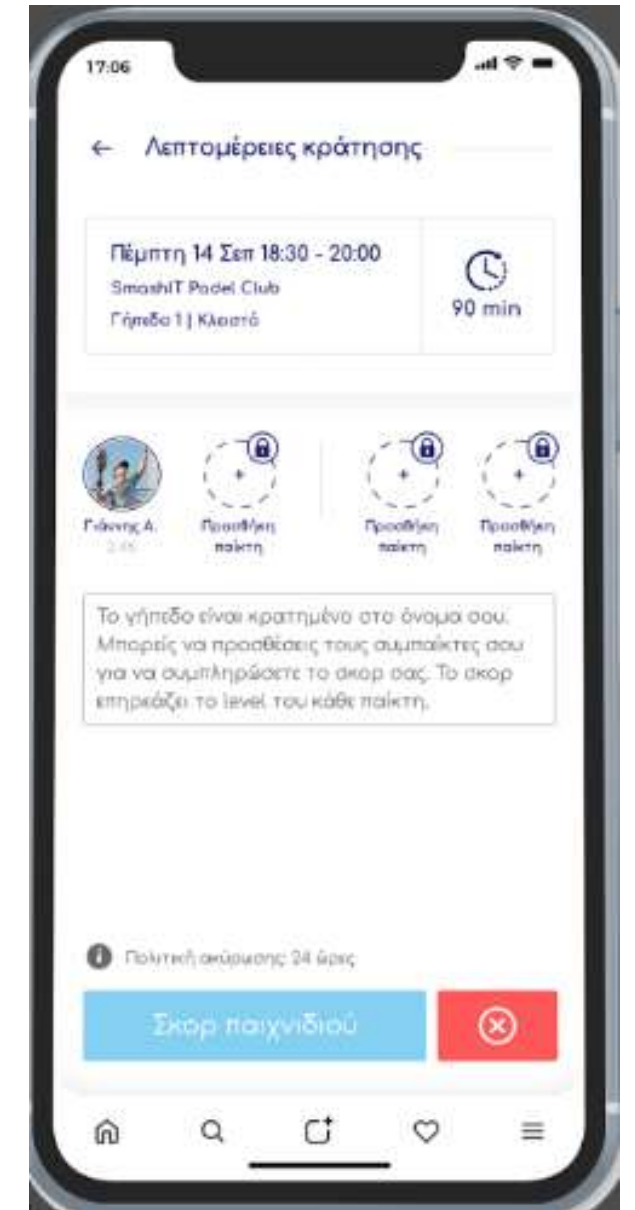

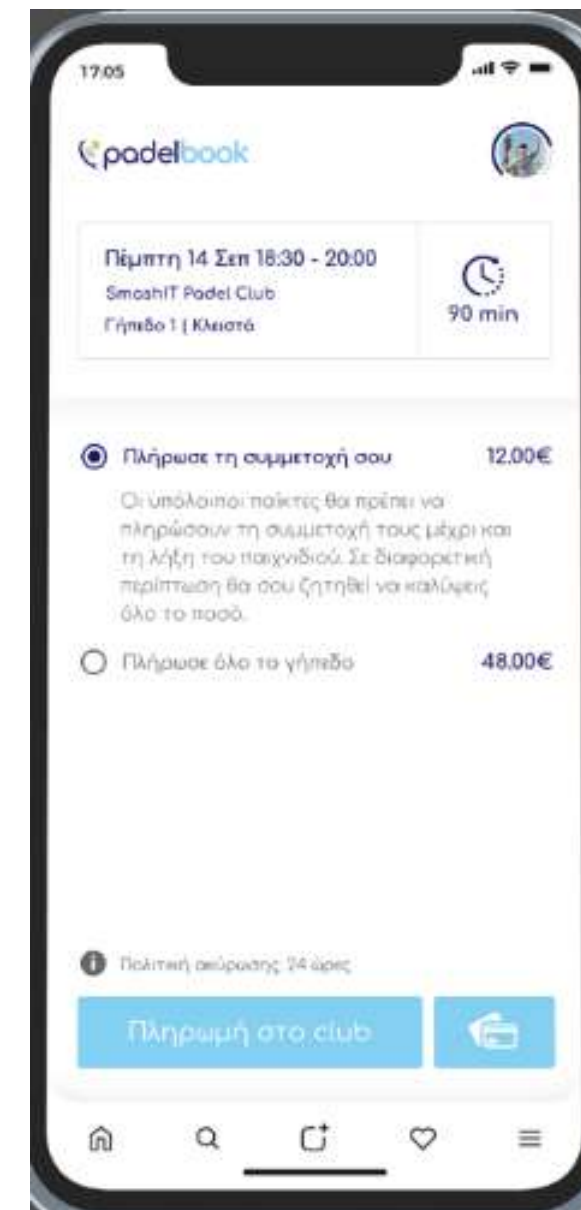

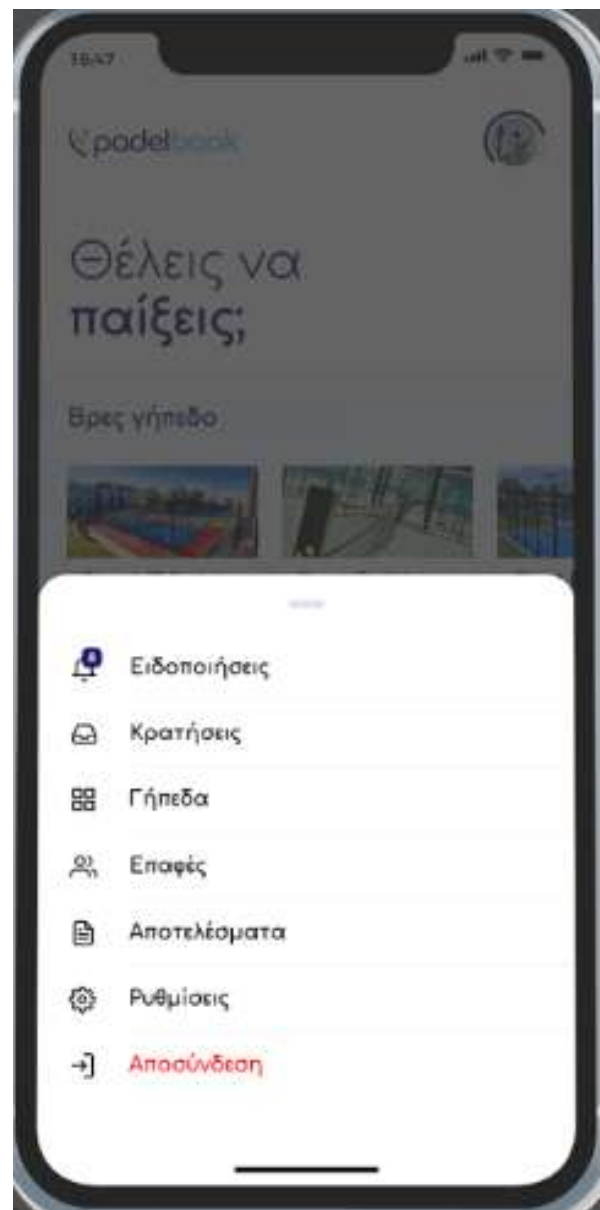

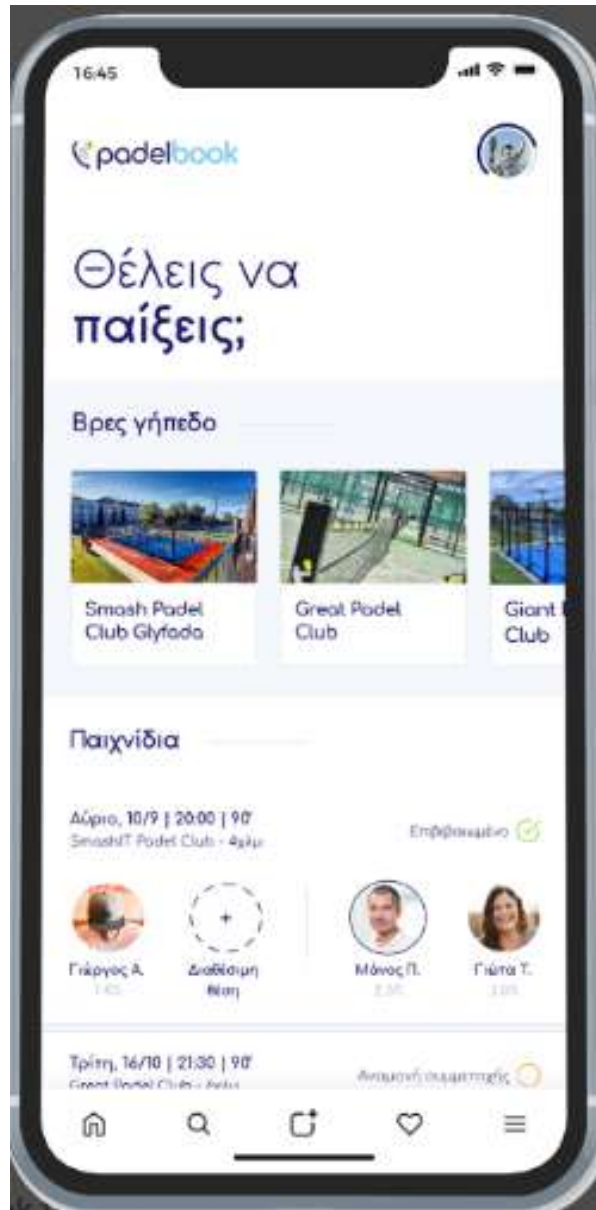

- HOME:** Features a large 'M-STAR' logo with the tagline 'Dedicated Supporting Talented Athletes And Rising Star'. Below the logo are four navigation buttons: 'LIVE SCORE', 'TEAMS', 'MEMBERS', and 'SCHEDULE'.
- SCORECARD:** Shows a match between 'JAI MAHESH DRAGON' (142-6 (20.0)) and 'SAARTHI PALTAN' (146-6 (19.0)). The match result is 'Saarthi Paltan Won by 4 wkts'. A table lists batsmen and their statistics:

Batsman	R	B	4s	6s	SR
Aakash J c Mukesh b Anil	10	17	1	0	58.82
Surrendra B (wk) st M Bhatiya b Mathur	0	1	0	0	0
Aakash J c Mukesh b Anil	10	17	1	0	58.82
Aakash J c Mukesh b Anil	10	17	1	0	58.82
Aakash J c Mukesh b Anil	10	17	1	0	58.82
Aakash J not out	54	27	6	3	200

- USERS:** A list of users with columns for 'SCAN BY', 'DATE', and 'ADDRESS'. All users listed are 'Surendra Singh' from 'Sardarpura, Jodh' on '18/09/2017'.
- LOCATION SERVICES:** A screen with a location pin icon, the text 'LOCATION SERVICES', and a message: 'Please verify you've switched Location to on'. A prominent pink button says 'TURN ON LOCATION SERVICES'. At the bottom, it states 'Camera access is required to perform app functionality'.

Padelbook

The platform facilitates the organization of padel games, court bookings, player matchmaking, and community engagement. Users can register, create profiles, and search for nearby padel courts. The system allows users to book courts, schedule games with other players, and keep track of their padel activities. Additionally, PadelBook offers features like real-time court availability, ratings, reviews, and social sharing functionalities to enhance the padel experience for users.

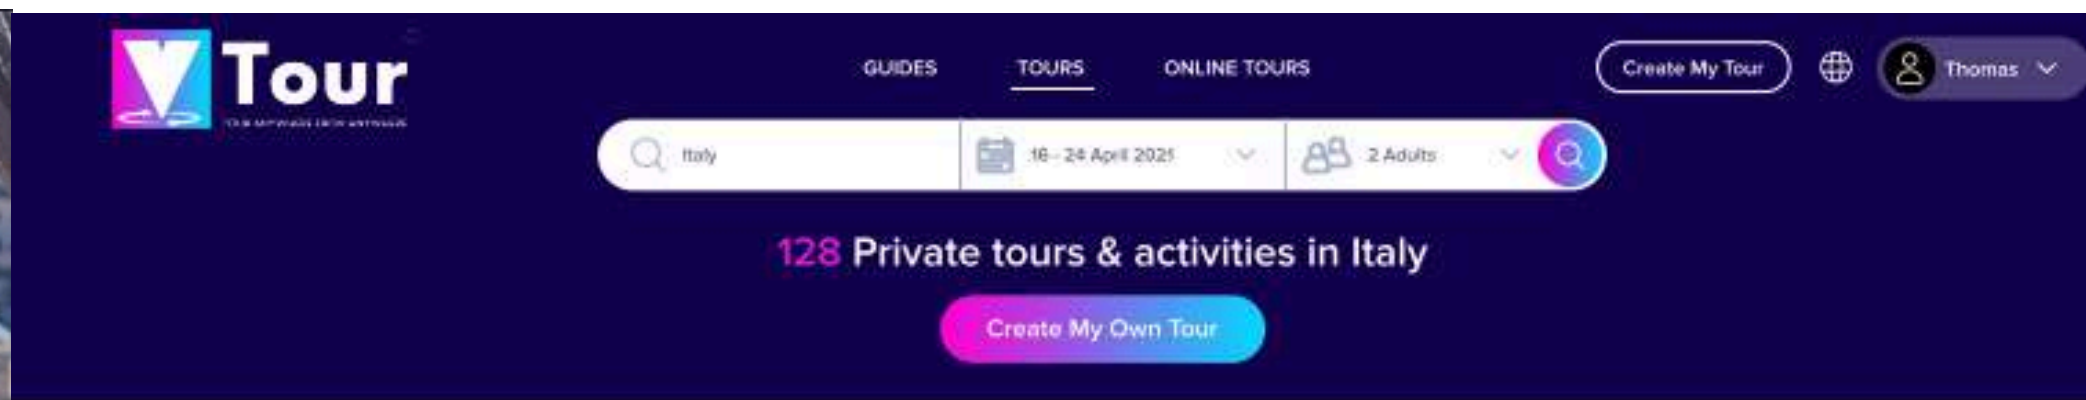

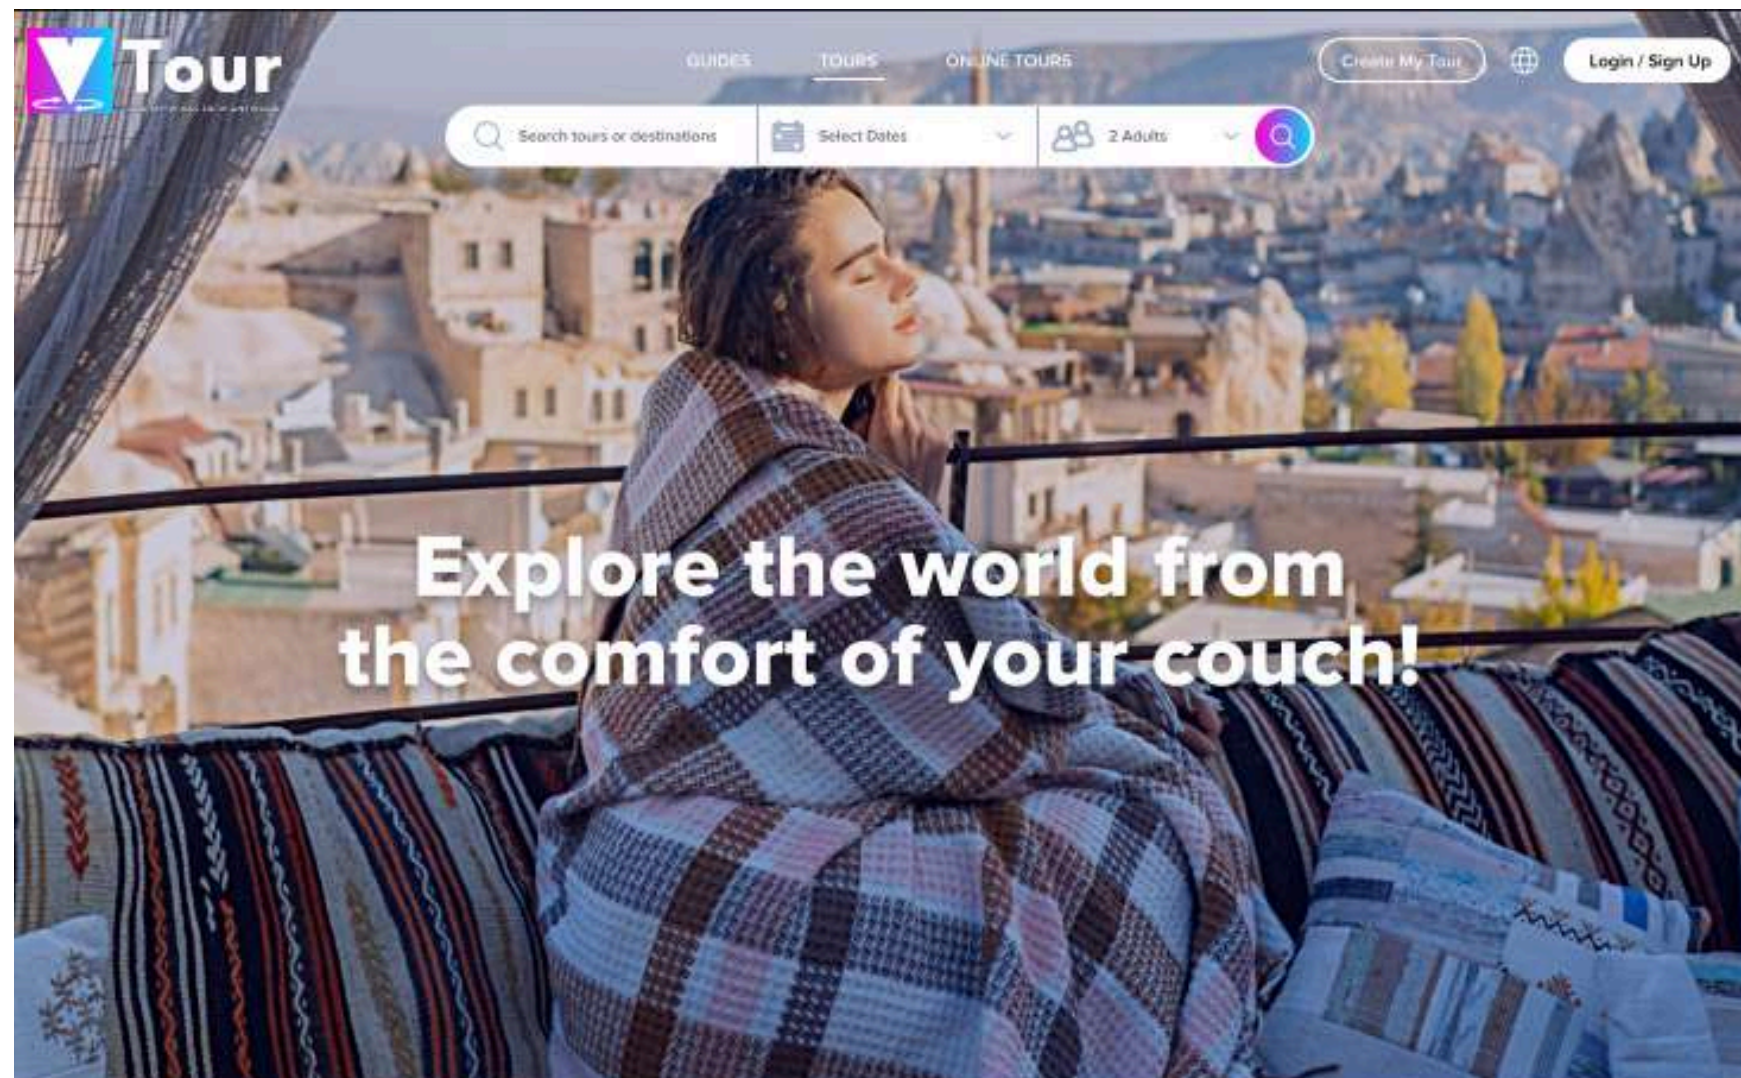

Tourism

VTour

Vtour is a platform where tourists can book guides, join group tours, and view virtual tours of hotels for their stay. It offers a seamless way to plan travel experiences, providing detailed insights into accommodations and guided tour options. This platform enhances the convenience of travel planning and booking.

EcoVitamin

Ecovitamin is a web and mobile e-commerce app offering a wide selection of vegetables, fruits, and seeds categorized for easy browsing and purchase. It provides a convenient platform for users to shop for organic and sustainable produce, promoting healthy living and environmental consciousness. Ecovitamin aims to support a wholesome lifestyle with quality agricultural products accessible at users' fingertips.

Import-Export (User Panel)

Import Export is a website designed for wholesalers to buy products, manage their carts, and personalize packaging. It offers a streamlined shopping experience with a wide range of products and customization options. This platform simplifies bulk purchasing and packaging for wholesale buyers.

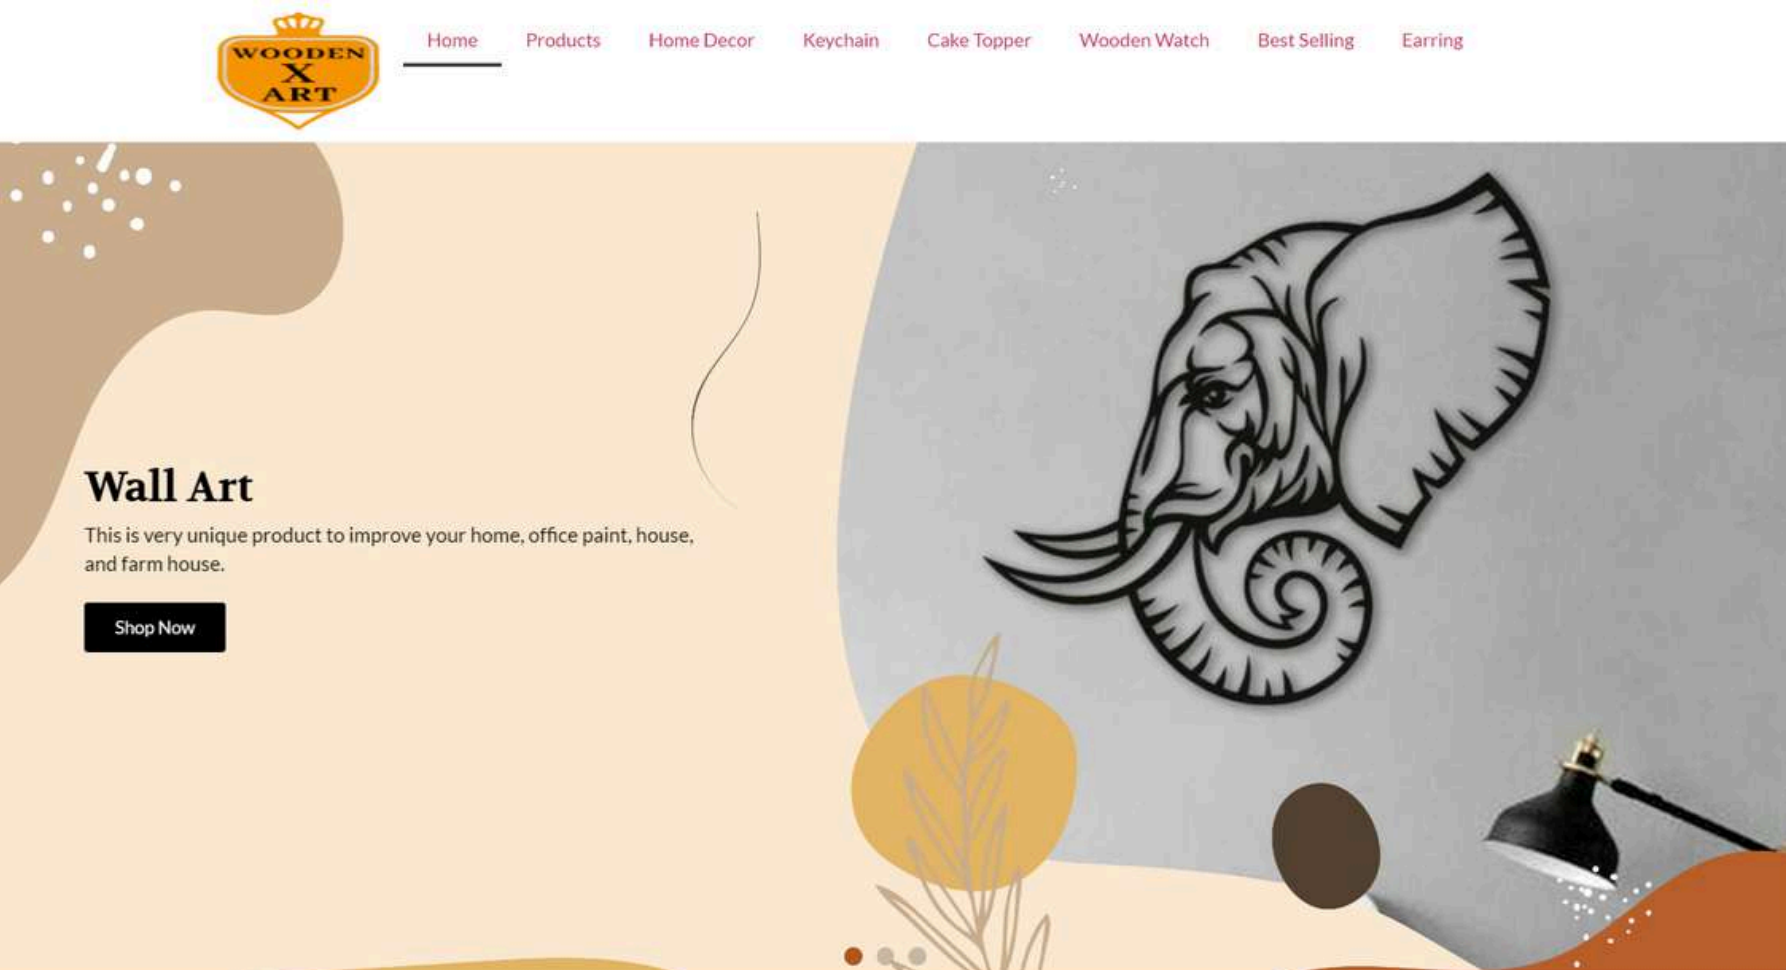

The screenshot displays the user interface of the Import-Export website. On the left, there are filter sections for 'PERIOD CHOOSSED' (with options: ALL, LAST 3 MONTHS, LAST 6 MONTHS, LAST YEAR) and 'PRICE' (with a slider from 0 to 1000). The main content area shows a grid of product listings. Each listing includes a product image, a title, and a price. The products shown are:

- Testing_Names_EN: \$ 56 (Image: A video player showing a scene with a donkey).
- teste: \$ 1.7 (Image: A person in a white garment).
- NEW: EN-perfume: \$ 3000 (Image: A perfume bottle).
- NEW: test: \$ 212 (Image: A wine glass being filled).
- Testing_Names_EN: \$ 56 (Image: A vase with flowers).
- Testing_Names_EN: \$ 56 (Image: A collection of pens).
- NEW: happy Holi! (Image: A colorful Holi greeting graphic).
- NEW: GOLD (Image: A gold coin).

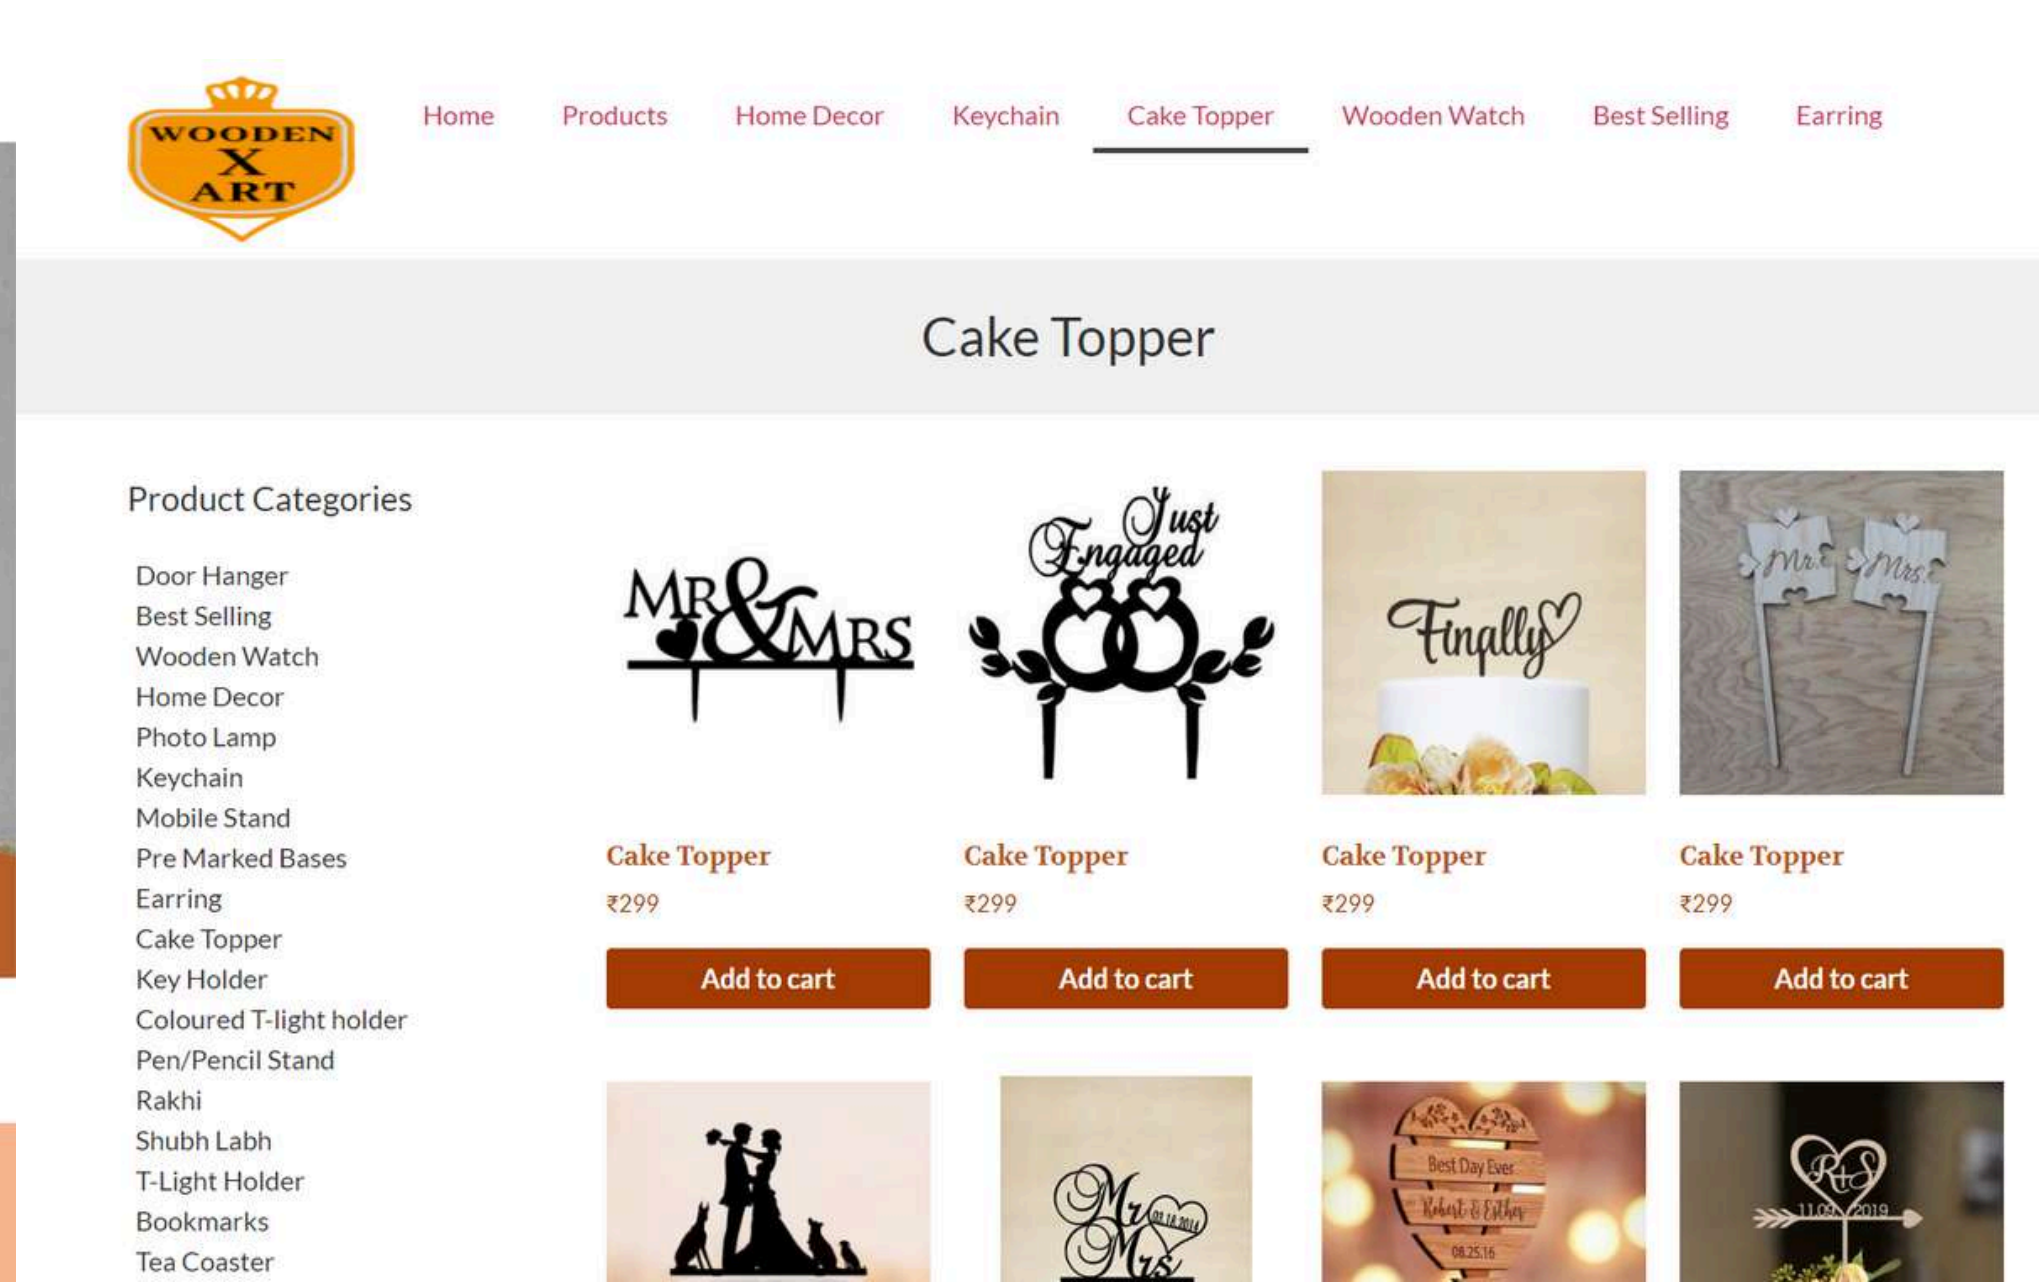

The top right of the interface shows a 'My Account' link and a navigation menu with options: PRODUCTS, USER-SETTING, FAVOURITE, ORDER HISTORY, REST OF ORDERS. Below the navigation menu, there is a search icon, a settings icon, and a shopping cart icon with a notification badge. The breadcrumb trail reads 'HOME / PRODUCT LIST'. At the bottom of the product grid, there is a status bar indicating 'Showing Products 1-20 Result Of 3226', a view toggle (grid/list), a pagination bar (1-10), and a 'Sorting Items' dropdown.

Woodenxart

WoodenXArt is an e-commerce site specializing in handcrafted items made from wood. It offers a diverse range of artisanal products including decor, furniture, and gifts. This platform provides a marketplace for purchasing unique, high-quality wooden handicrafts, enhancing home and office spaces with craftsmanship and creativity.

Mediagarh

<https://mediagarh.com/>

Mediagarh is a digital marketing company specializing in helping businesses enhance their online presence and achieve their marketing goals. They offer services such as SEO, social media management, content creation, and online advertising. Mediagarh aims to drive growth and engagement through tailored digital strategies.

The screenshot shows the top navigation bar with links for Home, About Us, Services, Our Work, Contact Us, and a Get In Touch button. The main headline reads "EDTECH INNOVATION TAILORED FOR TOMORROW'S COLLEGES!" with a "Schedule a Meeting" button below it. A secondary headline says "THE SWISS ARMY KNIFE OF FOR EDTECHS". At the bottom, there is a "Who is MEDIAGARH" section with a brief description of the company's mission and a logo.

This section features a dark background with the text "We create. We innovate. We tailor effective digital marketing and advertising campaigns that deliver results!". Below this are four service icons: Advertising & Performance, Search Engine Optimisation, Social Media Marketing, and Website Design & Development. A central banner reads "In the Heartbeat of Digital Marketing Innovation We're the Pulse" above a collage of various educational advertisements. The "Our Services" section at the bottom states: "We specialize in offering all-encompassing 360-degree digital solutions tailored specifically for the EdTech sector. Our exceptional marketing services guarantee top-notch quality, ensuring successful outcomes for your educational technology business. Let us empower you to elevate your EdTech venture to new heights through impactful..."

The "Our Services" section is presented as a grid of nine service cards, each with an icon and a brief description: Content Solutions, Performance Marketing, Website Development, Branding and Design, Social Media Marketing, Automation Solutions, and Search Engine Optimization. Below the services grid is the "Our Clients" section, which displays logos for various educational institutions and companies like Unacademy, Career Point, and Green Point. The "Our Case Studies" section at the bottom is partially visible.

This section is titled "Our Case Studies" and features a grid of four case study cards for INSD, OAWA, SANKALP, and CIM, each with a "view case study" link. Below the grid is a testimonial from Sagar Joshi, a Law Prep Tutorist, with a quote: "The Campaign Would Not Have Been Successful Without You. Encouraging Enthusiasm Demands And Working At Lightened To Complete Everything. As Well As Going Above And Beyond To...". The testimonial is accompanied by the text "What They SAY" and "Receiving a heartfelt client testimonial is like a burst of sunshine on a cloudy day, a reminder that our hard work and dedication have truly made a positive impact, and it fills us with joy." At the bottom, a banner states "We specialize in digital marketing tailored for educators!" and lists key performance indicators: 2,000+ Million Impressions served, 15+ Million Clicks, 5+ Million Unique Leads Generated, and 150+ Clients from the education sector.

Reglan Drilling

<https://raglandrilling.com.au>

Reglan Drilling's informational website is your go-to destination for comprehensive insights into drilling technologies and solutions. From exploration to extraction, we provide essential information, industry updates, and expert guidance to empower professionals in the drilling sector. Join us at Reglan Drilling and stay ahead in the ever-evolving world of drilling.

WELCOME TO REGLAN DRILLING

Learn more about our services and solutions. We are committed to providing the highest quality services to our clients.

Our commitment to safety and health is a core value. We ensure that all our operations are conducted in a safe and healthy environment.

WE ARE REGLAN DRILLING WE CARE ABOUT SAFETY & HEALTH

Reglan Drilling believes that achieving the right health and environmental outcomes depends upon our commitment, our people and our systems. To help us achieve the right outcomes we have developed our HSE Management System in alignment with ISO 45001 Occupational Health and Safety management systems and ISO 14001 Environmental Management Systems. The plans, procedures and training we give our people enable us demonstrate our commitment to always achieving professional outcomes and environmental care.

We believe the development of our people is as important as our commercial business objectives. To this end we encourage all of our people to undertake the available training programs with the view that they will achieve relevant recognized qualifications in their field of work.

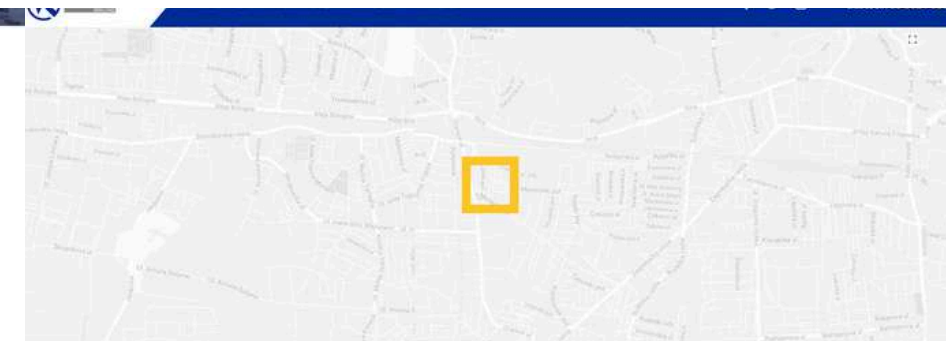

We aim to have a high level of HSE awareness and through that build a strong culture, in which all our personnel strive to contribute to their own safety, the safety of others and the minimization of our impact on the environment. This requires all of our personnel to maintain a high personal commitment to positive HSE outcomes at all times. We know that awareness of the HSE issues of our work and a strong proactive culture are important factors in ensuring that all of our activities are completed safely, timely and productively with minimum impact on the environment.

THIS IS OUR STORY

Reglan Drilling was founded in 2000 by two brothers Hugh and Gus Lacey. Hugh and Gus are still the Director and have grown the business from just one rig to over 100 rigs.

With us, the natural level based HSE focus, the focus on safety and the focus on the people who work with us, we have built a reputation for providing the highest quality services to our clients.

ABOUT US

Hugh and Gus Lacey Brothers and their director started Reglan Drilling in 2000. The company has since successfully grown to provide top quality services in the past 17 years operating all over Western Australia.

SERVICES

OUR UNIQUE & RELIABLE SERVICES

Learn more about our unique and reliable services. We provide comprehensive drilling services to our clients.

RC DRILLING

- RC Drilling to 500m
- Down hole surveying
- Large diameter, 1000mm/1200mm
- Submersible dust suppression
- Remote accommodation facilities

DIAMOND DRILLING

- P, H and N wireline logs
- Diamond drilling to 1000m
- Downhole installations (downing holes, gauges, packer testing etc)
- Directional and controlled drilling
- Geotechnical logging P, H and N logs

AIR CORE/RAB DRILLING

- Rigged to 50m
- Basic and complex capability
- Small footprint, low impact
- Cost effective/first pass drilling

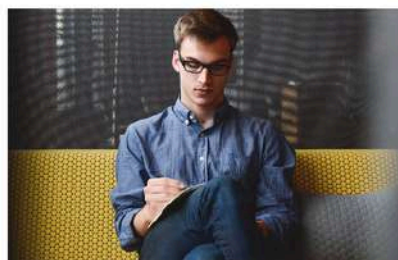

OUR PEOPLE

HIGHLY COMPETENT AND CAPABLE TEAM

REGLANDRILLING includes specialist teams with many years of industry experience. Our team includes operations managers, drivers, operators, pump operators and administrative support.

Our people are highly competent and capable because we select only the best people for the job. This is supported by the way we train our people.

HUGH LACEY, Director

Hugh has over 10 years of drilling experience ranging from RAB to 500m. He has been involved in the development of the RC drilling industry in Western Australia.

GUS LACEY, Director

Gus has over 7 years of drilling experience with RC and RAB. He has been involved in the development of the RC drilling industry in Western Australia.

IOT Applications

Click and Collect

<https://www.clickncollect.com>

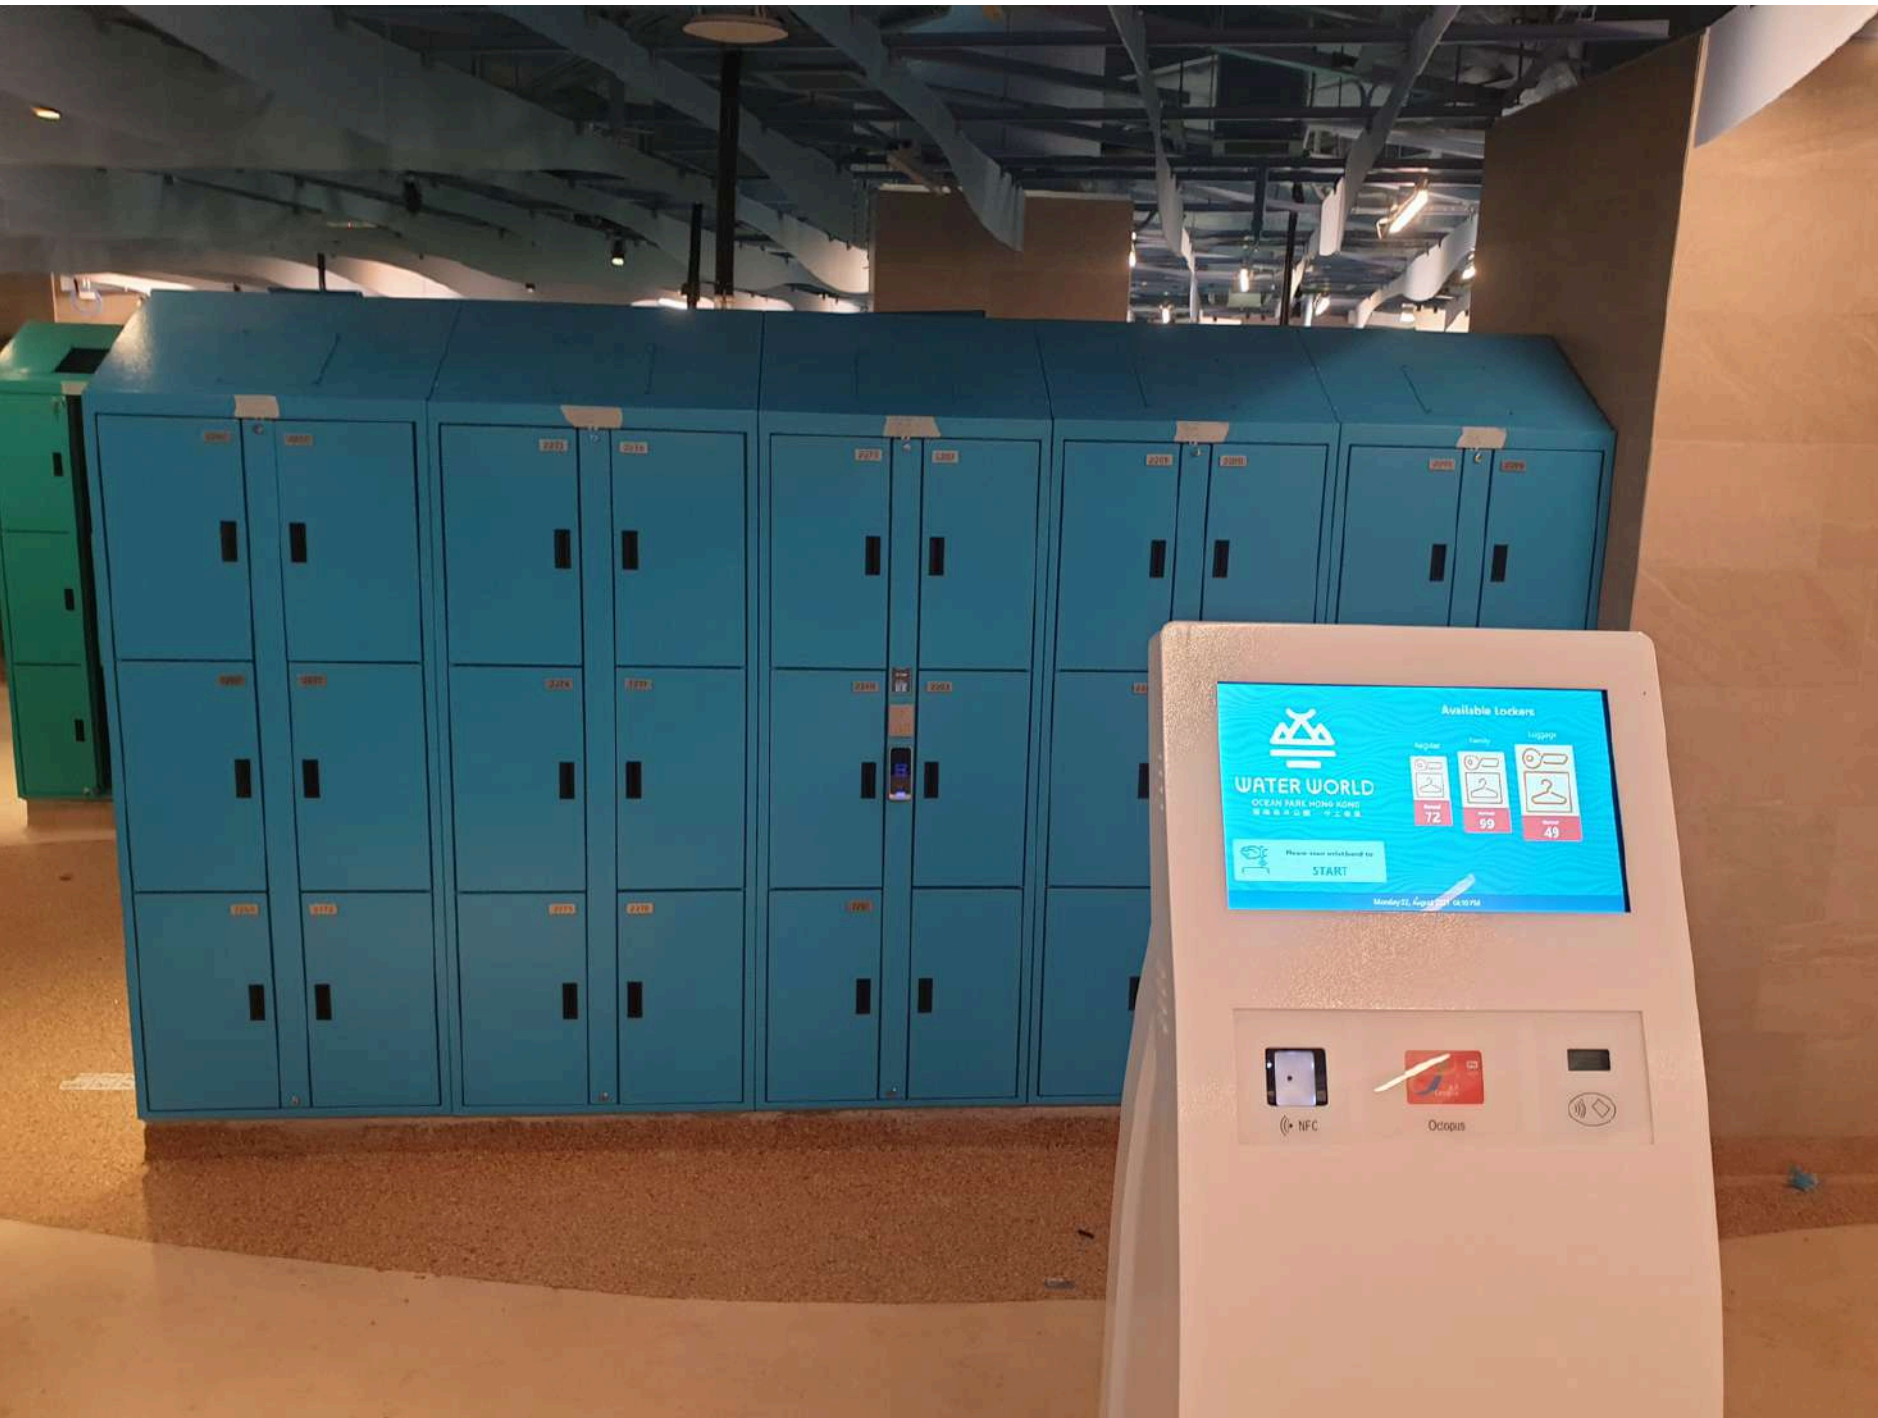

Discover the enhanced durability and versatility of our smart lockers, crafted from high-quality rolled galvanized and stainless steel for superior rigidity and longevity. Featuring foam-injected bodies, these lockers offer enhanced structural integrity and insulation, ensuring protection against temperature fluctuations and impacts. Combining cutting-edge technology with uncompromising strength, our smart lockers provide secure, efficient, and customer-friendly storage solutions for both indoor and outdoor applications.

The screenshot displays the Click n Collect web application interface. The top navigation bar includes the logo, a search bar, the user's name (Hi, ajitsingh.microalent@gmail.com), and a Logout button. The left sidebar contains a menu with items: Dashboard, Alarms, Order, Customer, Users, Location, Cabinet, Locker, Master Data, Template, Setting, and Language Translation. The main content area is divided into two sections. The left section, titled 'Order info', contains a form with the following fields: Location (Jodhpur_Location), Email (ajitsinghrk3@gmail.com), Mobile (09166532116), First Name (Ajit), Last Name (Singh), Order Number (1), Order Type (Customer Collect & Return), Senior/Disability Status (Normal), and Locker Type (Chiller). A summary table shows: Locker Type: Chiller, Available: 10, In use: 0, Reserved: 0. The right section, titled 'Cabinet List', displays a table with the following data:

CABINET NAME	ROW NO	HEIGHT	ROW TYPE	MERGE TYPE	MANAGE
JDH_CAB	1	400	Locker	No Merge	
JDH_CAB	2	400	Locker	No Merge	
JDH_CAB	3	400	Locker	No Merge	
JDH_CAB	4	400	Locker	No Merge	
JDH_CAB	5	400	Locker	No Merge	
JDH_CAB	6	400	Locker	No Merge	
JDH_CAB	7	400	Locker	No Merge	
JDH_CAB	8	400	Locker	No Merge	
JDH_CAB	9	400	Locker	No Merge	

Smart Locker

This is Locker solution built to provide , using this application the user can see available lockers, can rent a locker and the identity is maintained with Wrist Band, which means when ever he keep his wrist band near/touch the locker, it will auto open using raspberry pie device inside.

HVAC

Duct Master

<https://www.ductarchitect.com/>

Duct Master is an HVAC calculator designed to efficiently calculate heating requirements and plan ductwork. It streamlines the process of designing and optimizing duct systems, ensuring efficient heat distribution and energy savings. Duct Master enhances precision in HVAC planning for improved comfort and performance in building environments.

The screenshot shows the 'Duct Planner' interface. At the top, there is a navigation bar with 'DUCT Architect' logo and links for Home, Projects, Free Calculator, Pricing, About Us, and Contact Us. A user profile 'Aryan siroh...' is visible in the top right. The main header features a background image of a factory with large ducts and the text 'Duct Planner'. Below the header, there are input fields for 'Project Name' (HTT) and 'Unit System' (IMPERIAL). The interface is divided into several sections: 'Main-Duct-1' on the left with buttons for 'Add Main Duct', 'Add Multiple Main Duct', 'Add Branch', and 'Add Multiple Branches'; 'Air Data' with fields for 'Duct Name', 'Air Quantity* (CFM)', 'Friction loss (IN/100FT)', 'Velocity (FPM)', and 'Duct Material' (Galvanized Steel); 'Duct Size' with 'Round Duct Diameter (IN)' and 'Rectangular Duct Dimensions (IN)' (Width and Height) and a 'Lock Duct Size' button; 'Possible Sizing' with a table of dimensions and ratios; and a 'Remarks' section with an 'Ex.- Remarks' field.

Width (IN)	X	Height (IN)	Ratio
	X	12	
	X	14	
	X	16	
	X	18	
	X	20	
	X	22	

The screenshot shows the 'Heat Calculator' interface. It has the same top navigation bar as the Duct Planner. The main header features a background image of a factory with large ducts and the text 'Heat Calculator'. Below the header, there is a 'Space For Test' section with a back arrow. This section includes input fields for 'Project Name' (HTT), 'Space Name' (Room1), 'Size (Sq ft)', 'Size (Cu ft)', and 'Rev'. Below this, there are two tables for 'Solar Gain Glass' and 'Solar & Trans. Gain Walls & Roof'. Each table has columns for 'Item' and 'Area (Sq Ft)'. The 'Solar Gain Glass' table includes items like N - Glass, NE - Glass, E - Glass, SE - Glass, S - Glass, SW - Glass, W - Glass, NW - Glass, and Sky light. The 'Solar & Trans. Gain Walls & Roof' table includes items like N - Glass, NE - Glass, SE - Glass, S - Glass, SW - Glass, W - Glass, NW - Glass, and Roof.

Item	Area (Sq Ft)	Item	Area (Sq Ft)	Item	Area (Sq Ft)
N - Glass		SE - Glass		W - Glass	
NE - Glass		S - Glass		NW - Glass	
E - Glass		SW - Glass		Sky light

It provides up-to-date odds and a user-friendly interface for an engaging betting experience. Max Bets aims to deliver a reliable and exciting platform for football enthusiasts.

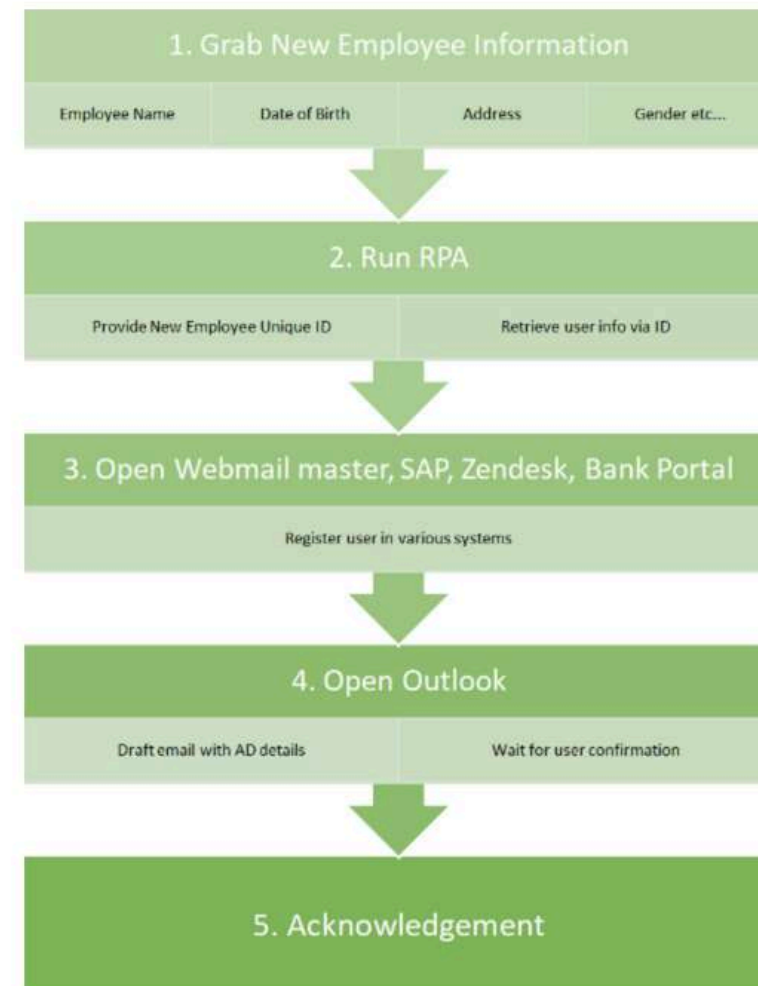

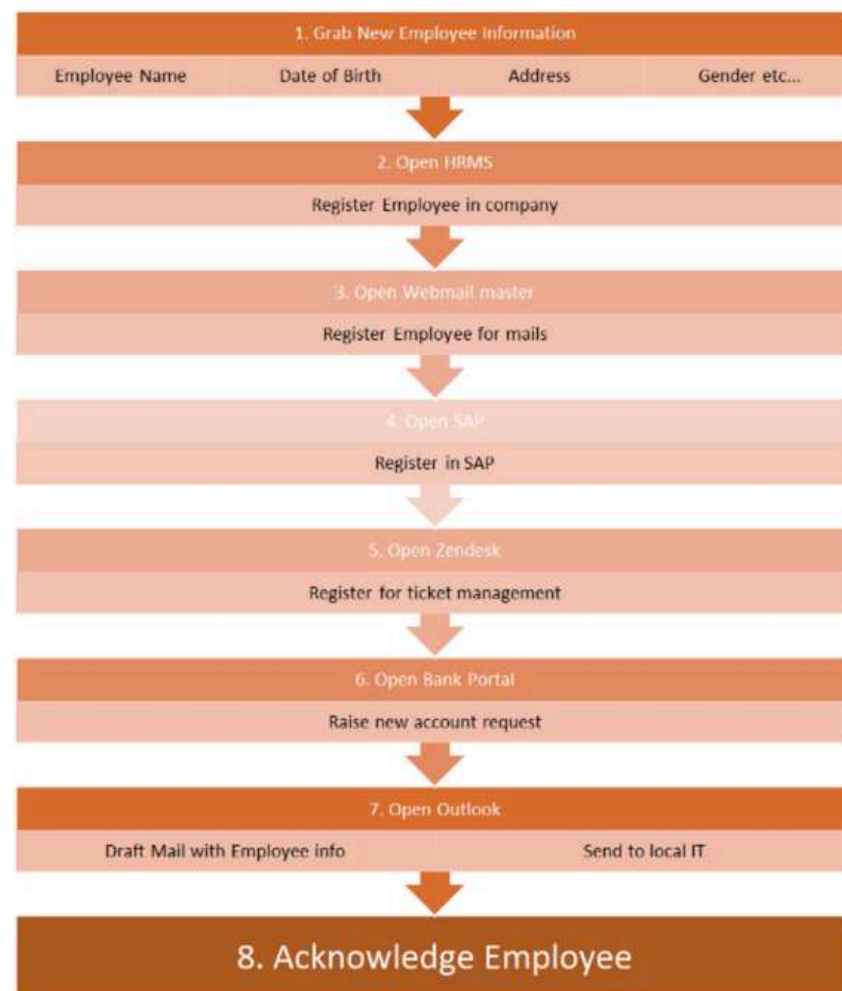

Case Studies

RPA Based Solutions

www.RPABased.Solutions

Use Case: HR manager want a solution that can make employee onboarding easier and reduce efforts to perform same operation again and again. Let's understand with an example. For a company X, if a new employee joins, then HR is required to create 5 different accounts for various systems where employee can access company data, accounting, mails etc. After that IT person need to be notified after registration so they can create employees AD account. Once employee onboarding process complete system should send email with some details and registration complete acknowledgement to new employee. Let's find out difference between manual process and RPA with below diagrams.

As you can see in this diagram, Manual process will take more user interaction steps than RPA. For an employee onboard manual process will take around 1 hour whereas RPA will around 10 minutes.

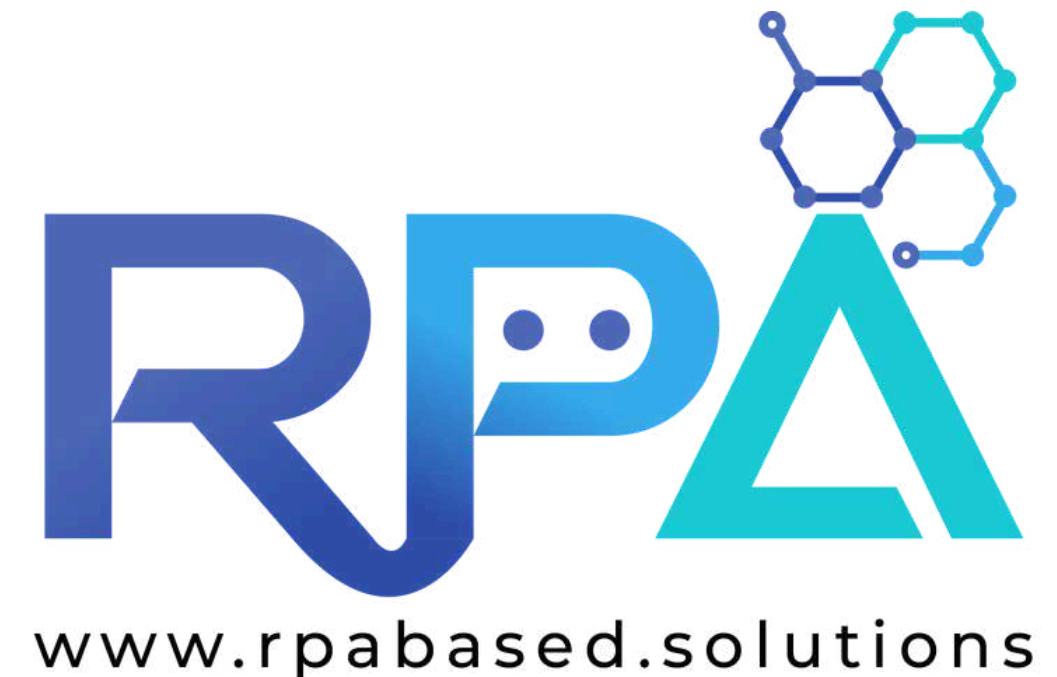

RPA Based Solutions

www.RPABased.Solutions

Use Case: Healthcare organizations operate in real-time, without any slack. Cumbersome, error-prone tasks slow down processes and affect everything from cost structures to compliance to the patient experience. RPA software creates efficiencies by automating tasks that improve the accuracy of data and reporting and enable decisions to be made more quickly. This translates to cost savings and ultimately means that resources can be utilized where they are needed most.

In healthcare, RPA can be used for following things:

- Manage and schedule patient appointments
- Billing and processing
- Records management
- Communications
- Administrative data entry

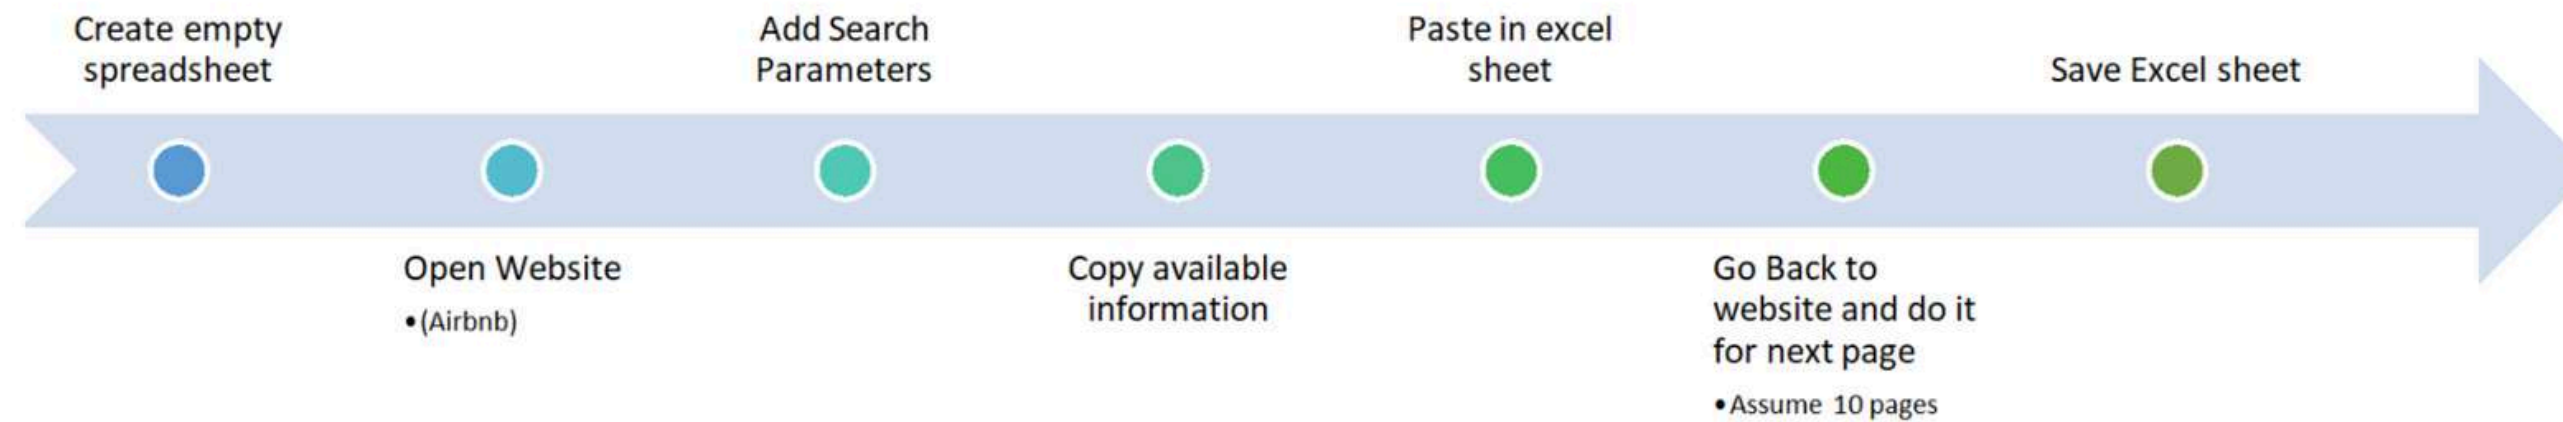

RPA Based Solutions

www.RPABased.Solutions

Use Case: Update doctor & patient with patient's diagnostics report. Such work is repetitive which can be done via RPA. See below diagram for more details

Manual:

Scrapper Bot (RPA):

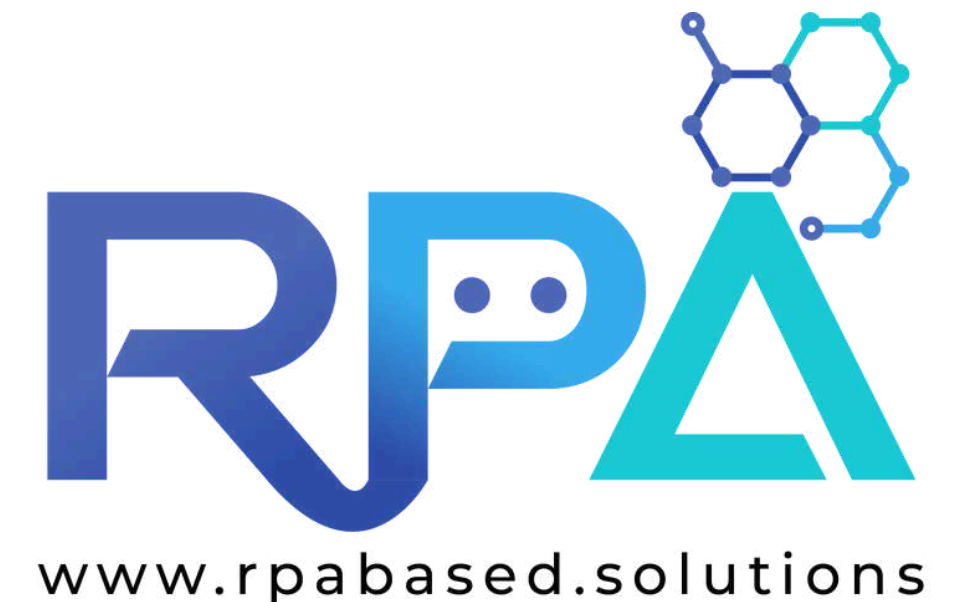

RPA Based Solutions

www.RPABased.Solutions

Use Case: Seed cleaning is the process of removal of any debris or low-quality, infested, or infected seeds and seeds of different species (weeds) that are foreign to the sample.

Our application takes orders from the farmers and then we store seeds in our storage after that some processes like germination, purity, and weeds are applied. Then provided to the Customers. When we have a shortage of seeds, we first grow them and then give them to Customers. We also manage cold storage of seeds

- If Customer wants a single seed for their farm, they can order them according to their need and farm area.
- If the Customer wants custom mix seeds, for that we have multiple functions and also an optimized solution for calculating the number of seeds we have to mix for the particular farm area

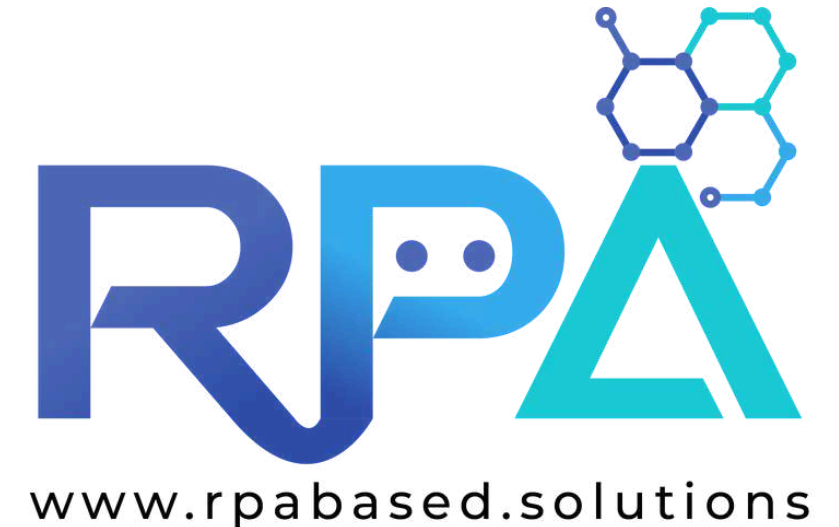

RPA Based Solutions

www.RPABased.Solutions

- In our application, we are providing different roles
 - Superuser
 - Customer
 - Farmer
 - Manager
- Every user has different functionality depending upon his or her role.
- The super user is the admin of our application he or she is the one who will be able to create, delete, update and set or disable the rights of any other user.
- We have a master section where we can store the records/details of all the farms we have, fields, labs, lab tests, family, species, product category, seed groups, seeds, product, screen, bag type, line, carrier, price
- In this, we can generate the invoice.
- In this, we have a feature like if the customer wants their order to come in parts then we can generate the invoice accordingly.
- In this, we can create a new job, specify its status, project name, the test required, etc.
- In this, we have a custom mix section, where if the customer wants to mix seeds or a mixture of seeds rather than only one type of seeds then also it can be done.
- In this, we can a product detail list where we can see a description of a specific product in detail.
- We can track inventory levels, orders, sales, and deliveries

RPA Based Solutions

www.RPABased.Solutions

- In this, we have a customer management system where we are managing the company's relationships with potential and existing customers in this we can active and inactive any customer depending upon our need. For example, if the customer didn't order in the last 2 months then we can inactive them and add active status to those who order frequently so that it will be easy for the company to contact those customers
- In this, we can list the expected recurring sales of multiple products over a period of time.

RPA Based Solutions

www.RPABased.Solutions

We can help you achieve optimised housing solutions with a maximum return on investment.

Organisations have used ALCMS to identify the optimum build solution for a particular development, and use the data produced to support a business case whether that be for additional funding or within your organisation.

ALCMS isn't just to be used for new builds, you can use it to analyse options of your ageing stock, and identify the best value for money method of handling these properties.

With ALCMS, you can identify everything from an entire development site to a individual asset such as a washing machine, ensuring you are achieving maximum value for money across your assets.

Our goal at Asset Lifecycle Cost Modeling System is to work with our clients to adopt a whole-life cost-focused approach to managing homes, from cradle to grave.

By applying the asset management principles set out in ISO 55001 to create an innovative and new Strategic Asset Management Plan, we are able to demonstrate a strong business case in favour of modern methods of construction (MMC) over traditional builds, something that they were unable to demonstrate prior to this project.
