Education

John Bryce College

Jun 2010 - Dec 2011 (1y 6m)

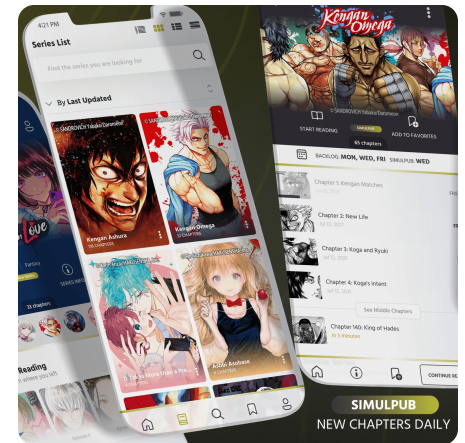

C#.NET Development Course Programming

- WCF
- WPF
- WinForms
- ASP
- ADO
- MVC

Snippets

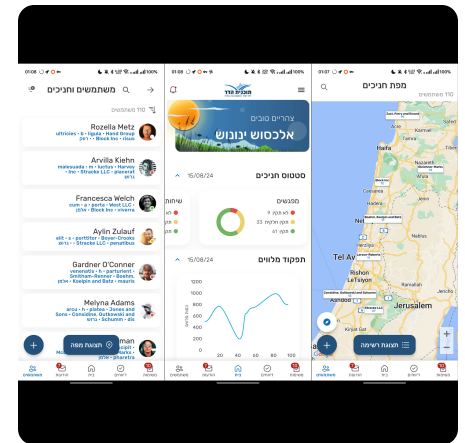

Comic Reading Mobile App @ play.google.com

Spearheaded the creation of a cutting-edge app from concept to launch. Designed robust architecture, mentored dev team, and implemented efficient CI/CD pipelines. Seamlessly balanced hands-on coding with strategic leadership and creative problem-solving. Ensured timely delivery of a high-quality product while maintaining team cohesion and momentum. Ready to bring this blend of technical expertise and project management skills to your next groundbreaking project.

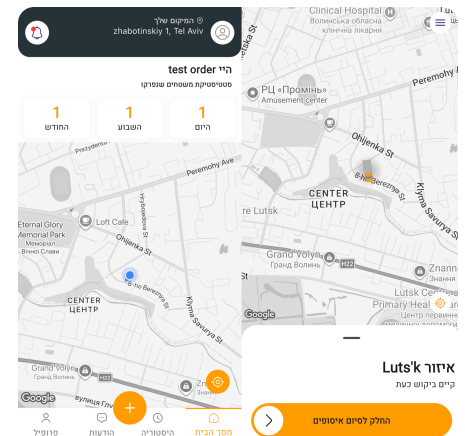

Mental Health Mobile App @ tochnithadar.com

Handled frontend dev for a non-profit mentorship app. Used Flutter to build a comprehensive set of features: user profiles, task management, advanced filters, messaging, user lists, institution pages, reporting tools, notifications, and more. Finished ahead of schedule, despite backend hurdles. Kept UI clean with smooth animations across all screens. Lent a hand to the backend team when needed. Squeezed every ounce of potential from our toolkit.

Logistics Mobile App @ picko.co.il

Solo built a production-ready Flutter app (iOS & Android) with a Firebase backend that matches businesses and the nearest available drivers in real time using efficient location indexing to instantly find relevant drivers while minimizing database usage; implemented a resilient Cloud Functions notification pipeline, robust FCM/APNs handling, Remote Config, App Check, Crashlytics, and automated dev/prod Codemagic CI/CD.

More about me

I want to work for a company that...

Hire smart people.
Pay them well.
Leave them alone.

-- Andrew Wilkinson

Right now I'm learning...

Rust, Golang, Svelte, Astro, React, and Solidjs.

Languages

English, Hebrew, Russian

Outside of work I...

Enjoy traveling, nature, and constantly learning new things.

Interests

Traveling, reading, investing, learning
