

### SMARTR™ Encryption

#### Transmission Preferred Encryption:

RMail's default settings first attempt transmission level encryption at the minimum sender-acceptable security level, and deliver the encrypted email right to the recipient's inbox, providing the same familiar user experience as a normal email: **without any logins, links or need to create an account.** Recipients even have the option to reply encrypted.

#### Benefits:

- The banner adds confidence for the receiver that the information was shared securely
- Familiar user experience
- No logins, links or need to create an account

#### REGISTERED EMAIL™ | ENCRYPTED TRANSMISSION

You have received an encrypted email from **David Sanders.**  
[click here](#) to reply to this message encrypted.

#### Benefits:

- Recipient can reply encrypted
- Option to attach up to 200MB of files securely in the reply
