

Conditional Fields

Application Form

Name _____

Age ___ Years

Date of birth _____

Marital Status Single Married to

Company Name _____

Designation _____

Department
Finance/Human Resources
Marketing
Research and Development
Sales

Note how the signer sees the dependencies based on which radio they selected

Application Form

Name _____

Age ___ Years

Date of birth _____

Marital Status Single Married to

Company Name _____

Designation _____

Department
Finance/Human Resources
Marketing
Research and Development
Sales

Now the field "Spouse Name" only appears when the option "Married" is selected

Add logic to the signing process so that if an action is performed on one fillable control field, additional actions will be required on others. Conditional fields can help to streamline and personalize the eSignature process by only presenting the relevant information and options to the signer.
