

**Working Together** - the results service for the WRU website to be with the best in world rugby.

Given the resources, All Wales Sport can help the Welsh Rugby Union provide a better quality results service for the community game in Wales.

All Wales Sport can offer a 'never off duty' service, and has the facility to 'stream' the results/updated tables on to the WRU website (with no work required at the other end) - the results service is also available in the 'Welsh Language'.

The Saturday results in the WRU National Leagues could be checked and confirmed on Mondays by the governing body.

We are of the view that the WRU should also be providing a results service for our stars of the future e.g. WRU National Youth Leagues, Welsh Secondary Schools, Dewar Shield, D C Thomas Cup competitions etc.

Whether seeking fixtures, seeking or selling international tickets, correcting errors etc, our offices would be open all hours and 365 days a year to maintain communication with the clubs to ensure the best possible service.
