WHO ARE WE

The Canadian Business Aviation Association (CBAA) is a non-profit association formed in 1961 as Canada's voice for business aviation. Since its inception, CBAA has assumed an increasing role in its advocacy for Canadian business aviation interests.

With a membership of approximately 400 companies and organizations, including operators, management companies and suppliers, CBAA represents the entire business aviation community with a unified and collective voice.

BUSINESS AVIATION IS

Business aviation in Canada is a critical asset that creates economic opportunities and jobs across the country. It is also a world leader in developing and adopting technologies that reduce our environmental footprint. Furthermore, business aviation provides a corporate advantage by connecting Canadian entrepreneurs and corporations to remote locations.

WHY BECOME A MEMBER

01

Advocacy

As a member, you will have a direct line to regulatory advocacy, ensuring your concerns are heard and addressed at the national level. We actively engage with government bodies and regulatory authorities to shape policies and standards that support safe, efficient, and responsible operations.

02

Knowledge Exchange

CBAA is committed to empowering members with industry insights, best practices, and resources and tools to excel in their operations. Gain access to subject matter experts, webinars, and conferences to stay informed.

03

Networking & Collaboration

Forge valuable relationships, collaborate on projects, and share wins and challenges with peers through our Annual Convention, chapter meetings, member directory, and more. These connections foster new business opportunities and partnerships, enriching the industry's collective impact.

04

Safety Excellence

CBAA plays a pivotal role in promoting safety standards and operational best practices within the business aviation community. Benefit from resources and programs to ensure your operations are conducted safely and efficiently.

05

Sustainability

CBAA is engaged in initiatives aimed at reducing the environmental impact of business aviation by lowering carbon emissions, creating a tangible and immediate positive impact on the industry's environmental footprint.
